

MONTEREY COUNTY PLANNING COMMISSION

Meeting: November 13, 2013 Time: 9:00 AM	Agenda Item No.: 2
Project Description: Consider an Administrative Permit and Design Approval to allow a wireless communications facility consisting of the addition of three (3) panel antennas to be mounted on an existing 61 foot high utility pole located along Carmel Valley Road. The addition includes a 72 square foot area for associated equipment cabinets that will be screened by vegetation. The existing utility pole is located at a turnout on the Carmel Valley Road right-of-way, near the intersection Eddy Road and Carmel Valley Road, Carmel Valley Master Plan.	
Project Location: Southside of the Carmel Valley Road right-of-way; east of the Eddy Road and Carmel Valley Road intersection.	APN: 000-000-000-000
Planning File Number: PLN130040	Owner: County right-of-way Agent: Verizon Wireless
Planning Area: Carmel Valley Master Plan	Flagged and staked: No
Zoning Designation: "PQP-D-S" [Public/Quasi-Public with a Design Control and Site Review overlay.]	
CEQA Action: Categorically Exempt per Section 15301 of the CEQA Guidelines	
Department: RMA - Planning Department	

RECOMMENDATION:

Staff recommends that the Planning Commission adopt a resolution (**Exhibit C**) to:

- 1) Find the project Categorically Exempt per Section 15301 of the CEQA Guidelines; and
- 2) Approve PLN130040, based on the findings and evidence and subject to the conditions of approval (**Exhibit C**);

PROJECT OVERVIEW:

The project entails the installation of a wireless communications facility on an existing 61 foot high utility pole located along Carmel Valley Road. The installation includes three (3) panel antennas to be mounted on an existing utility pole and a 72 square foot area near the utility pole for associated equipment. Though the mounting of antennas on an existing structure is exempt pursuant to Section 21.64.310.D.1 of the Monterey County Zoning Ordinance, the project is proposed along Carmel Valley Road which is considered a key public viewing area (Policy CV-3.3, Carmel Valley Master Plan); and therefore, requires a public hearing before the Planning Commission (Section 21.44.040.E, Monterey County Zoning Ordinance). The proposed location is an alternative site agreed upon between RMA – Planning and the applicant. The originally submitted project proposed a new 47 foot high utility pole with six (6) antennas and a 312 square foot equipment area. Staff recommends that the project be approved, subject to conditions of approval applied to the project (see **Exhibit B** for further discussion).

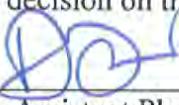

OTHER AGENCY INVOLVEMENT: The following agencies and departments reviewed this project:

- ✓ RMA - Public Works Department
- ✓ Environmental Health Bureau
- ✓ Water Resources Agency
- ✓ Monterey County Regional Fire Protection District

Agencies that submitted comments are noted with a check mark ("✓"). Any conditions recommended by said agencies have been applied (**Exhibit C**).

The project was referred to the Carmel Valley Land Use Advisory Committee (LUAC) for review. Based on the LUAC Procedure guidelines adopted by the Monterey County Board of Supervisors per Resolution No. 08-338, this application did warrant referral to the LUAC (see **Exhibit B** for more detail).

Note: The decision on this project is appealable to the Board of Supervisors.

Dan Lister, Assistant Planner

Fire District: Monterey County Regional	Grading (cubic yards): Minimal
Tree Removal (Count/Type): None	

EXHIBIT B **PROJECT DISCUSSION**

Project Description

The project entails the installation of a wireless communications facility on an existing 61 foot high utility pole located along Carmel Valley Road. The installation includes three (3) panel antennas to be mounted on an existing utility pole and a 72 square foot area near the utility pole for associated equipment. The antennas will be placed at a height of 34 feet on the existing utility pole. The project is located behind a guardrail near an existing turnoff on the Southside of the Carmel Valley Road public right-of-way. The site is east of the Eddy Road and Carmel Valley Road intersection, as shown in the photo below.

The applicant, Verizon Wireless, has a State Franchise Agreement which allows Verizon Wireless, as a telephone corporation, to install telephone utilities in public right-of-ways. Pursuant to 7901 of the Public Utilities Code, local government may regulate installation based on time, place and manner. Chapter 21.64.310 of the Monterey County Zoning Ordinance provides the regulations for all wireless communication facilities. Said chapter regulates the siting, design and development of all wireless facilities, including facilities placed in public right-of-ways.

Project Issues

Carmel Valley Road is considered a “key public viewing area” (CV-3.3, Carmel Valley Master Plan) and is proposed for designation as a scenic road (CV-2.15). Development in key public viewing areas shall not be allowed if development significantly blocks the viewshed. The regulations for Wireless Communications Facilities (Chapter 21.64.310 of the Monterey County Zoning Ordinance) have strict regulations for development of a wireless facility in a visually sensitive area or within scenic corridors. Wireless facilities are required to be sited in the least visually obtrusive location possible (Section 21.64.310.C.4). Co-location shall be pursued to the maximum extent feasible; co-location is discouraged in cases when it will increase visual impact (Section 21.64.310.C.7 and 21.64.310H.1.b). Site location and development of wireless facilities shall preserve the visual character and aesthetic values of the surrounding land uses (Section 21.64.310.H.1.a). In designated scenic corridors, wireless facilities shall be designed below the ridgeline or designed to minimize their visual impact (Section 21.64.310.H.1.d). Wireless facilities shall be screened from any designated scenic corridor or public viewing area to the maximum extent (Section 21.64.310.H.1.e).

On May 3, 2013, the applicant submitted an application for a Use Permit to allow the installation of a new 47 foot high utility pole and the mounting of six (6) panel antennas on two 10 foot

double cross arms for commercial wireless uses (see photo below). The original project proposal included a 312 square foot equipment area. On June 2, 2013, the project was deemed incomplete and staff requested an alternatives site analysis and to minimize the design as much as possible.

The original proposal was reviewed by the Carmel Valley Land Use Advisory Committee (LUAC) on June 3, 2013 and July 1, 2013. During both occasions the LUAC unanimously recommended denial of the project with the added recommendation that the applicant needs to find an alternative location.

Alternative Location

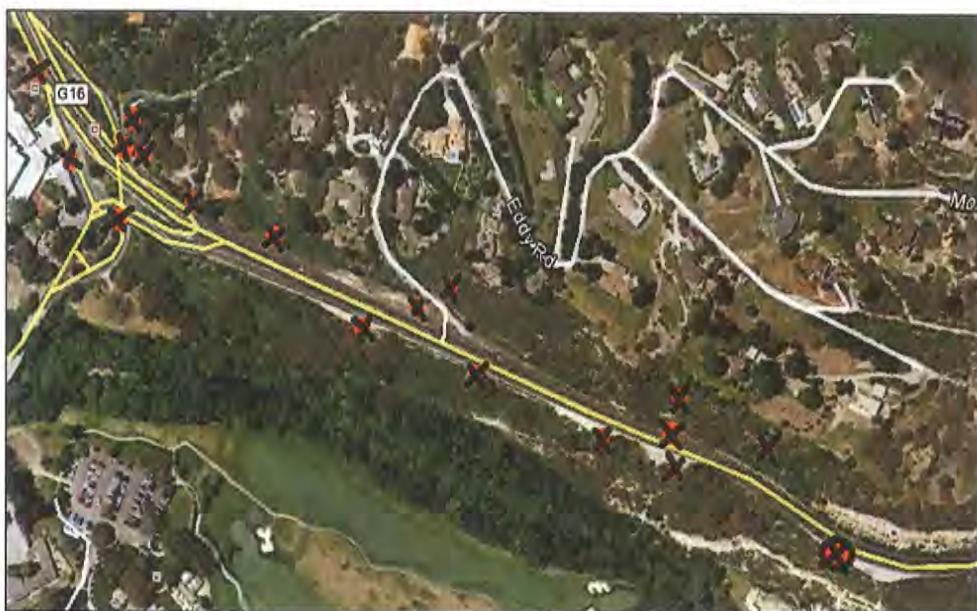

Between August 30, 2013 and October 28, 2013, planning staff worked with representatives at Verizon Wireless to find a suitable location for the project. Staff presented 14 alternative locations to the applicant which with a minimized design may be a suitable site for the project. On November 1, 2013, Verizon Wireless resubmitted plans proposing to locate the project on an existing utility pole approximately 415 east of the original project location. Unlike the original design, the proposed design of the project has been minimized. The project no longer proposes a new utility pole, the panel antennas have been reduced to three (3) antennas on one 8 foot double cross arm, and the equipment area has been reduced to 72 square feet and will be screened by vegetation. The installation will use materials and colors to blend in with the existing pole and surrounding area (see photo simulation below).

A non-standard condition of approval is recommended requiring Verizon Wireless to remove the site if plans are adopted requiring utilities along Carmel Valley Road to be placed underground. The applicant has agreed to all recommended conditions of approval.

Pursuant to regulations for Wireless Communications Facilities, the placement of antennas on an existing structure is exempt from a discretionary permit (Section 21.64.310.D.1, Zoning Ordinance). An Administrative Permit has been applied to the project pursuant to Public Quasi-Public Section 21.40.040.F of the Monterey County Zoning Ordinance, and a Design Approval has been applied pursuant to Design Control regulations Chapter 21.44 of the Monterey County Zoning Ordinance. Because the project is located along a scenic corridor, the project requires a public hearing before the Monterey County Planning Commission (Section 21.44.040.E, Zoning Ordinance).

Based on the existing viewshed within the vicinity of the project, there are approximately 17 existing utility poles in the area (see photo below; "X" represents existing utility poles). Upon review, the project is not considered a significant visual impact since the project proposes to be located on an existing utility pole and proposes a minimized design that will not significantly add to the visibility of the existing pole.

Recommendation

Staff has determined that the project, as proposed, has been sited and designed to minimize visual impacts along Carmel Valley Road. The project proposes the use of an existing utility pole in order to not to create additional utility pole clutter along the scenic corridor; the design has been minimized to not significantly add to the visibility of the existing utility pole, and proposed vegetated screening around the equipment area to minimize visibility of the equipment area along Carmel Valley Road. The project is consistent with Wireless Communications Facilities regulations (Section 21.64.310, Zoning Ordinance) and has been designed to blend in with the existing views in the area consistent with the Carmel Valley Master Plan. Therefore, Staff recommends that the Planning Commission approved the project, subject to conditions of approval.

EXHIBIT C
DRAFT RESOLUTION

**Before the Planning Commission in and for the
County of Monterey, State of California**

In the matter of the application of:

VERIZON WIRELESS (PLN130040)

RESOLUTION NO. _____

Resolution by the Monterey County Planning
Commission:

- 1) Finding the project Categorically Exempt per Section 15301 of the CEQA Guidelines; and
- 2) Approving an Administrative Permit and Design Approval to allow a wireless communications facility consisting of the addition the addition of three (3) panel antennas to be mounted on an existing 61 foot high utility pole located along Carmel Valley Road. The addition includes a 72 square foot area for associated equipment cabinets that will be screened by vegetation.

[PLN130040, Owner, County of Monterey;
Applicant, Verizon Wireless; east of the Eddy Road
and Carmel Valley Road, Carmel Valley Master Plan]

The Verizon Wireless application (PLN130040) came on for public hearing before the Monterey County Planning Commission on November 13, 2013. Having considered all the written and documentary evidence, the administrative record, the staff report, oral testimony, and other evidence presented, the Planning Commission finds and decides as follows:

FINDINGS

1. **FINDING:** **PROJECT DESCRIPTION** – The proposed project is an Administrative Permit and Design Approval to allow a wireless communications facility consisting of the addition the addition of three (3) panel antennas to be mounted on an existing 61 foot high utility pole located along Carmel Valley Road. The addition includes a 72 square foot area for associated equipment cabinets that will be screened by vegetation.
- EVIDENCE:**
- a) The project application was submitted on May 3, 2013. The project originally proposed a new 47 foot high utility pole with six panel antennas and a 210 square foot equipment shelter. The project was deemed incomplete on June 3, 2013. On November 1, 2013, the applicant resubmitted plans and information, and the project was deemed complete.
 - b) The project has been duly noticed for the Monterey County Planning Commission Hearing on November 13, 2013 pursuant to Public Notice Requirements Section 21.78.040 of the Monterey County Zoning

- Ordinance.
- c) The application, project plans, and related support materials submitted by the project applicant to the Monterey County RMA - Planning Department for the proposed development found in Project File PLN130040.
2. **FINDING:** **CONSISTENCY** – The Project, as conditioned, is consistent with the applicable plans and policies which designate this area as appropriate for development.
- EVIDENCE:**
- a) During the course of review of this application, the project has been reviewed for consistency with the text, policies, and regulations in:
 - the 2010 Monterey County General Plan (GP);
 - Carmel Valley Master Plan (CV);
 - Monterey County Zoning Ordinance, Title 21 (MCC);No conflicts were found to exist. No communications were received during the course of review of the project indicating any inconsistencies with the text, policies, and regulations in these documents.
 - b) The property is located east of the Eddy Road and Carmel Valley Road intersection, Carmel Valley Master Plan. The parcel is zoned ‘PQP-D-S’ [Public-Quasi Public with a Design Control and Site Review overlay]. The site is an existing utility pole located along an existing turnout on the Southside of the Carmel Valley Road public right-of-way, maintained by the County of Monterey. Verizon Wireless, a telephone corporation, has a State Franchise Agreement that allows the applicant to place associated telephone utilities within the public right-of-way. Pursuant to Section 7901 of the Public Utilities Code, local government may regulate installation based on time, place and manner. Chapter 21.64.310 of the Monterey County Zoning Ordinance provides the regulations for all wireless communication facilities. Said chapter regulates the siting, design and development of all wireless facilities, including facilities placed in public right-of-ways. The project, as proposed, is consistent with zoning designation in the area.
 - c) The project is zoned with Design Control (“D”) and Site Review (“S”) overlay Zoning Districts which protects the visual integrity of the area (Chapter 21.44 MCC), and important resources known to the area (Chapter 21.45 MCC). The project will be placed on an existing 61 foot high utility pole. The proposed antennas and equipment area have been designed to provide service coverage to the area while minimizing the design of the project as much as possible. The project includes three (3) antennas on one 8 foot double cross arm and an equipment area of 72 square feet. The equipment area will be screened with native vegetation. The installation will use materials and colors to blend in with the existing pole and surrounding area. Therefore, the project is consistent with the Design Control and Site Review overlays.
 - d) Carmel Valley Road is considered a “key public viewing area” (CV-3.3, Carmel Valley Master Plan) and is proposed for designation as a scenic road (CV-2.15). Development in key public viewing areas shall not be allowed if development significantly blocks the viewshed. Based on the existing viewshed within the vicinity of the project, there are approximately 17 existing utility poles in the area. Upon review, the

project is not considered a significant visual impact since the project proposes to be located on an existing utility pole, and proposes a minimized design that will not significantly add to the visibility of the existing pole.

- e) Wireless Communications Facility: (See Finding no. 7)
- f) The project planner conducted a site inspection on February 5, 2013 to verify that the project on the subject parcel conforms to the plans listed above.
- g) The original proposal of the project, which was a new 47 foot high utility pole with six panel antennas and a 312 square foot equipment area, was referred to the Carmel Valley Land Use Advisory Committee (LUAC) for review. Based on the LUAC Procedure guidelines adopted by the Monterey County Board of Supervisors per Resolution No. 08-338, this application did warrant referral to the LUAC because the project required a discretionary permit that requires a public hearing. The original project was reviewed twice by the LUAC: June 3, 2013 & July 1, 2013. During both meetings, the LUAC unanimously recommended denial of the project recommending that the applicant find a different location. The project, as proposed, was not sent back to the LUAC. The project will be placed on an existing utility pole which is considered an Administrative Permit pursuant to Public - Quasi Public Section 21.40.040.F of the Monterey County Zoning Ordinance. Administrative Permits do not require LUAC review. The project is also proposed approximately 400 feet east of the originally proposed location, which the LUAC denied twice.
- h) The application, project plans, and related support materials submitted by the project applicant to the Monterey County RMA - Planning Department for the proposed development found in Project File PLN130040.

3. FINDING: **SITE SUITABILITY** – The site is physically suitable for the use proposed.

EVIDENCE:

- a) The project has been reviewed for site suitability by the following departments and agencies: RMA - Planning Department, Monterey County Regional Fire Protection District, Public Works, Environmental Health Bureau, and Water Resources Agency. There has been no indication from these departments/agencies that the site is not suitable for the proposed development. Conditions recommended have been incorporated.
- b) Staff conducted a site inspection on February 5, 2013 to verify that the site is suitable for this use.
- c) The application, project plans, and related support materials submitted by the project applicant to the Monterey County RMA - Planning Department for the proposed development found in Project File PLN130040.

4. FINDING: **HEALTH AND SAFETY** - The establishment, maintenance, or operation of the project applied for will not under the circumstances of this particular case be detrimental to the health, safety, peace, morals, comfort, and general welfare of persons residing or working in the neighborhood of such proposed use, or be detrimental or injurious to

property and improvements in the neighborhood or to the general welfare of the County.

- EVIDENCE:**
- a) The project was reviewed by the RMA - Planning Department, Monterey County Regional Fire Protection District, Public Works, Environmental Health Bureau, and Water Resources Agency. The respective agencies have recommended conditions, where appropriate, to ensure that the project will not have an adverse effect on the health, safety, and welfare of persons either residing or working in the neighborhood.
 - b) Staff conducted a site inspection on February 5, 2013 to verify that the site is suitable for this use.
 - c) The application, project plans, and related support materials submitted by the project applicant to the Monterey County RMA - Planning Department for the proposed development found in Project File PLN130040.

5. **FINDING:** **NO VIOLATIONS** - The subject property is in compliance with all rules and regulations pertaining to zoning uses, subdivision, and any other applicable provisions of the County's zoning ordinance. No violations exist on the property.

- EVIDENCE:**
- a) Staff reviewed Monterey County RMA - Planning Department and Building Services Department records and is not aware of any violations existing on subject property.
 - b) Staff conducted a site inspection on February 5, 2013 and researched County records to assess if any violation exists on the subject property.
 - c) There are no known violations on the subject parcel.
 - d) The application, plans and supporting materials submitted by the project applicant to the Monterey County Planning Department for the proposed development are found in Project File PLN130040.

6. **FINDING:** **CEQA (Exempt):** - The project is categorically exempt from environmental review and no unusual circumstances were identified to exist for the proposed project.

- EVIDENCE:**
- a) California Environmental Quality Act (CEQA) Guidelines Section 15301 categorically exempts minor development on existing facilities.
 - b) The project consists of the installation of three panel antennas on an existing 61 foot high utility pole located on the Carmel Valley Road public right of way. The project includes a 72 square foot area for associated equipment. The installation is considered a minor alteration to an existing facility. Therefore, the project meets the intent of Section 15301 of the CEQA Guidelines.
 - c) No adverse environmental effects were identified during staff review of the development application during a site visit on February 5, 2013.
 - d) None of the exceptions under CEQA Guidelines Section 15300.2 apply to this project.
 - e) Staff conducted a site inspection on February 5, 2013 to verify that the site is suitable for this use.
 - f) The application, project plans, and related support materials submitted by the project applicant to the Monterey County RMA - Planning Department for the proposed development found in Project File PLN130040.

- 7. FINDING:**
- WIRELESS COMMUNICATION FACILITIES** – The development of the proposed wireless communications facility will not significantly affect any designated public viewing area, scenic corridor or any identified environmentally sensitive area or resources. The site is adequate for the proposed development of the wireless communication facility and the applicant has demonstrated that it is the most adequate for the provision of services as required by the Federal Communications Commission. The proposed wireless communication facility complies with all the applicable requirements of Monterey County Code section 21.64.310. The subject property on which the wireless communication facility is to be built is in compliance with all rules and regulations pertaining to zoning uses, subdivisions and any other provisions of Title 21 and that all zoning violation abatement costs, if any, have been paid. The proposed telecommunication facility will not create a hazard for aircraft in flight.
- EVIDENCE:**
- a) The project consists of the installation of three (3) panel antennas on an existing 61 foot high utility pole. The installation includes a 72 square foot area for associated equipment. The project site is located near an existing turnout along Carmel Valley Road.
 - b) Carmel Valley Road is considered a “key public viewing area” (CV-3.3, Carmel Valley Master Plan) and is proposed for designation as a scenic road (CV-2.15). Development in key public viewing areas shall not be allowed if development significantly blocks the exiting viewshed. The regulations for Wireless Communications Facilities (Chapter 21.64.310 of the Monterey County Zoning Ordinance) have strict regulations for development of a wireless facility in a visually sensitive area or within scenic corridors. Wireless facilities are required to be sited in the least visually obtrusive location possible (21.64.310.C.4, Zoning Ordinance). Co-location shall be pursued to the maximum extent feasible; co-location is discouraged in cases when it will increase visual impact (21.64.310.C.7 and 21.64.310H.1.b, Zoning Ordinance). Site location and development of wireless facilities shall preserve the visual character and aesthetic values of the surrounding land uses (21.64.310.H.1.a, Zoning Ordinance). In designated scenic corridors, wireless facilities shall be designed below the ridgeline or designed to minimize their visual impact (21.64.310.H.1.d, Zoning Ordinance). Wireless facilities shall be screened from any designated scenic corridor or public viewing area to the maximum extent (21.64.310.H.1.e, Zoning Ordinance).
 - c) Conditions have been incorporated that would reduce the visual impact and include further review of colors and exterior lighting, modifications in the event of technological advances, and maintenance and restoration of the site.
 - d) The project originally submitted by Verizon Wireless entailed the installation of a 47 foot high utility pole on the Carmel Valley Road right-of-way. The project included the installation of six panel antennas and a 312 square foot equipment shelter. On June 2, 2013, County staff deemed the project incomplete requiring alternative site analysis and to minimize design as much as possible. Between August 30, 2013 and October 28, 2013, planning staff has been working with representatives

at Verizon Wireless to find a suitable location for the project. Staff presented 14 alternative locations that, with a minimized design, the project may be suitable. On November 1, 2013, Verizon Wireless resubmitted plans to locate the project on an existing 61 foot high utility pole approximately 415 east of the original project location. Unlike the original design, the design of the project has been minimized. The project no longer proposes a new utility pole, the panel antennas have been reduced to three (3) antennas on one 8 foot double cross arm, and the equipment area has been reduced to 72 square feet and will be screened by vegetation. The installation will use materials and colors to blend in with the existing pole and surrounding area.

- e) The project is consistent with Section 21.86 (Airport Approaches Zoning) and does not require review by the Monterey County Airport Land Use Commission. This project does not affect any aircraft zones identified in Section 21.86.050 MCC and the proposed height is within limitations outlined in Section 21.86.060 MCC.
- f) The project does not penetrate a FAR Part 77 Imaginary Surface since it is not located within five (5) miles of an airport (Monterey Peninsula, Salinas Municipal, Mesa Del Rey/King City, Carmel Valley, or Fritzsche Army/Fort Ord). If deemed necessary by the FCC, proper warning lights would be located on top of the structure to prevent conflict with any aircraft (e.g. crop dusters) when visibility is limited.
- g) Staff site visit and project photos in project file PLN130040.

8. **FINDING:** **APPEALABILITY** - The decision on this project may be appealed to the Board of Supervisors.
EVIDENCE: Section 21.80.040.D of the Monterey County Zoning Ordinance states that the proposed project is appealable to the Board of Supervisors.

DECISION

NOW, THEREFORE, based on the above findings and evidence, the Planning Commission does hereby:

1. Find the project Categorically Exempt per Section 15301 of the CEQA Guidelines; and
2. Approve an Administrative Permit and Design Approval to allow a wireless communications facility consisting of the addition the addition of three (3) panel antennas to be mounted on an existing 61 foot high utility pole located along Carmel Valley Road. The addition includes a 72 square foot area for associated equipment cabinets that will be screened by vegetation. The project is in general conformance with the attached sketch and subject to the attached conditions all being attached hereto and incorporated herein by reference.

PASSED AND ADOPTED this 13th day of November, 2013 upon motion of _____, seconded by _____, by the following vote:

AYES:

NOES:

ABSENT:

ABSTAIN:

COPY OF THIS DECISION MAILED TO APPLICANT ON _____.

THIS APPLICATION IS APPEALABLE TO THE BOARD OF SUPERVISORS.

IF ANYONE WISHES TO APPEAL THIS DECISION, AN APPEAL FORM MUST BE COMPLETED AND SUBMITTED TO THE CLERK TO THE BOARD ALONG WITH THE APPROPRIATE FILING FEE ON OR BEFORE _____.

This decision, if this is the final administrative decision, is subject to judicial review pursuant to California Code of Civil Procedure Sections 1094.5 and 1094.6. Any Petition for Writ of Mandate must be filed with the Court no later than the 90th day following the date on which this decision becomes final.

NOTES

1. You will need a building permit and must comply with the Monterey County Building Ordinance in every respect.

Additionally, the Zoning Ordinance provides that no building permit shall be issued, nor any use conducted, otherwise than in accordance with the conditions and terms of the permit granted or until ten days after the mailing of notice of the granting of the permit by the appropriate authority, or after granting of the permit by the Board of Supervisors in the event of appeal.

Do not start any construction or occupy any building until you have obtained the necessary permits and use clearances from the Monterey County Planning Department and Building Services Department office in Salinas.

2. This permit expires 3 years after the above date of granting thereof unless construction or use is started within this period.

Monterey County Planning Department

DRAFT Condition of Approval Implementation Plan/Mitigation

Monitoring Reporting Plan

PLN130040

1. PD001 - SPECIFIC USES ONLY

Responsible Department: Planning Department

Condition/Mitigation Monitoring Measure: The term "applicant" as used in these conditions means Verizon Wireless and its successors and assigns. This Administrative Permit and Design Approval permit (PLN130040) allows a wireless communications facility consisting of the addition of three (3) panel antennas to be mounted on an existing 61 foot high utility pole located along Carmel Valley Road. The addition includes a 72 square foot area for associated equipment cabinets that will be screened by vegetation. The property is located at a turnout on the Carmel Valley Road right-of-way, near the intersection Eddy Road and Carmel Valley Road, Carmel Valley Master Plan. This permit was approved in accordance with County ordinances and land use regulations subject to the terms and conditions described in the project file. Neither the uses nor the construction allowed by this permit shall commence unless and until all of the conditions of this permit are met to the satisfaction of the Director of the RMA - Planning Department. Any use or construction not in substantial conformance with the terms and conditions of this permit is a violation of County regulations and may result in modification or revocation of this permit and subsequent legal action. No use or construction other than that specified by this permit is allowed unless additional permits are approved by the appropriate authorities. To the extent that the County has delegated any condition compliance or mitigation monitoring to the Monterey County Water Resources Agency, the Water Resources Agency shall provide all information requested by the County and the County shall bear ultimate responsibility to ensure that conditions and mitigation measures are properly fulfilled.
(RMA - Planning Department)

Compliance or Monitoring Action to be Performed: The applicant and/or successors and assigns, shall adhere to conditions and uses specified in the permit on an ongoing basis unless otherwise stated.

2. PD003(A) - CULTURAL RESOURCES NEGATIVE ARCHAEOLOGICAL REPORT

Responsible Department: Planning Department

Condition/Mitigation Monitoring Measure: If, during the course of construction, cultural, archaeological, historical or paleontological resources are uncovered at the site (surface or subsurface resources) work shall be halted immediately within 50 meters (165 feet) of the find until a qualified professional archaeologist can evaluate it. The Monterey County RMA - Planning Department and a qualified archaeologist (i.e., an archaeologist registered with the Register of Professional Archaeologists) shall be immediately contacted by the responsible individual present on-site. When contacted, the project planner and the archaeologist shall immediately visit the site to determine the extent of the resources and to develop proper mitigation measures required for recovery.
(RMA - Planning Department)

Compliance or Monitoring Action to be Performed: The applicant and/or successors and assigns shall adhere to this condition on an on-going basis.

3. PD032(A) - PERMIT EXPIRATION

Responsible Department:	Planning Department
Condition/Mitigation Monitoring Measure:	The permit shall be granted for a time period of 3 years, to expire on November 11, 2016 unless use of the property or actual construction has begun within this period. (RMA-Planning)
Compliance or Monitoring Action to be Performed:	Prior to the expiration date stated in the condition, the applicant and/or successors and assigns shall obtain a valid grading or building permit and/or commence the authorized use to the satisfaction of the RMA-Director of Planning. Any request for extension must be received by RMA-Planning at least 30 days prior to the expiration date.

4. PD039(A) - WIRELESS INDEMNIFICATION

Responsible Department:	Planning Department
Condition/Mitigation Monitoring Measure:	The term "applicant" as used in these conditions means Verizon Wireless and its successors and assigns. The applicant agrees as a condition and in consideration of the approval of the permit to enter into an indemnification agreement with the County whereby the applicant agrees to defend, indemnify, and hold harmless the County, its officers, agents and employees from actions or claims of any description brought on account of any injury or damages sustained by any person or property resulting from the issuance of the permit and conduct of the activities authorized under said permit. The County shall promptly notify the applicant of any such claim, action, or proceeding and the County shall cooperate fully in the defense thereof. The County may, at its sole discretion, participate in the defense of such action, but such participation shall not relieve applicant of its obligations under this condition. (RMA - Planning)
Compliance or Monitoring Action to be Performed:	Prior to construction of the project, the applicant and/or successors and assigns shall submit signed and notarized Indemnification Agreement to the Director of RMA-Planning for review and signature by the County.

5. PD039(B) - WIRELESS REDUCE VISUAL IMPACTS

Responsible Department:	Planning Department
Condition/Mitigation Monitoring Measure:	The applicant and/or successors and assigns shall agree, in writing, that if future technological advances allow for reducing the visual impacts of the telecommunication facility, the applicant shall make modifications to the facility accordingly to reduce the visual impact as part of the facility's normal replacement schedule. (RMA - Planning)
Compliance or Monitoring Action to be Performed:	Prior to the construction of the project, the applicant and/or successors and assigns shall submit, in writing, a declaration agreeing to comply with the terms of this condition RMA - Planning for review and approval.

6. PD039(D) - WIRELESS REMOVAL

Responsible Department:	Planning Department
Condition/Mitigation Monitoring Measure:	If the applicant and/or successors and assigns abandons the facility or terminates the use, the applicant shall remove the monopole, panel antennas, and equipment shelter. Upon such termination or abandonment, the applicant shall enter into a site restoration agreement subject to the approval of the Director of RMA - Planning and County Counsel. The site shall be restored to its natural state within six (6) months of the termination of use or abandonment of the site. (RMA - Planning)
Compliance or Monitoring Action to be Performed:	If the applicant and/or successors and assigns abandons the facility or terminates the use, the applicant and/or successors and assigns shall submit a site restoration agreement to RMA - Planning subject to the approval of the RMA - Director of Planning and County Counsel. Within 6 months of termination of use or abandonment of the site, the applicant and/or successors and assigns shall restore the site to its natural state.

7. PD039(E) - WIRELESS EMISSION

Responsible Department:	Planning Department
Condition/Mitigation Monitoring Measure:	The facility must comply with Federal Communications Commission (FCC) emission standards. If the facility is in violation of FCC emission standards, the Director of RMA - Planning shall set a public hearing before the Appropriate Authority whereupon the appropriate authority may, upon a finding based on substantial evidence that the facility is in violation of the then existing FCC emission standards, revoke the permit or modify the conditions of the permit. (RMA - Planning)
Compliance or Monitoring Action to be Performed:	Prior to commencement of use, the applicant and/or successors and assigns shall submit documentation demonstrating compliance with the FCC emission standards to the Director of RMA-Planning for review and approval. On an on-going basis, if the facility is in violation of FCC emission standards, the Director of RMA-Planning shall set a public hearing before the Appropriate Authority to consider revocation or modification of the permit.

8. PDSP001 - UNDERGROUND UTILITIES (NON-STANDARD)

Responsible Department:	Planning Department
Condition/Mitigation Monitoring Measure:	Pursuant to Policy CV-2.15 and CV 2.16 of the Carmel Valley Master Plan, if at any time the County approves a plan to require all utilities along Carmel Valley Road to be placed underground, the project shall be removed. If the applicant, Verizon Wireless and/or successors and assigns, identifies a new location to relocate the project, the new site will be subject to the 2010 Monterey County General Plan and regulations for the development of Wireless Communications Facilities (21.64.310 of the Monterey County Zoning Ordinance, Title 21). (RMA - Planning)
Compliance or Monitoring Action to be Performed:	On an on-going basis, if at any time the County adopts a plan that requires all utilities along Carmel Valley Road to be placed underground, the applicant and/or successors and assigns shall have the project removed.

9. PDSP002 - SCREENING VEGETATION (NON-STANDARD)

Responsible Department: Planning Department

Condition/Mitigation Monitoring Measure: As proposed, the 72 square foot area for associated wireless equipment shall be screened with native vegetation to ensure the equipment area does not distract public views along Carmel Valley Road. After construction has ceased, the native vegetation shall be planted. The vegetation shall be maintained in perpetuity to ensure the equipment area is screened from public views on Carmel Valley Road. (RMA - Planning)

Compliance or Monitoring Action to be Performed: Prior to commencement of use, the applicant, Verizon Wireless and/or successors and assigns, must have native vegetation planted around the 72 square foot equipment area, providing visual screening from views on Carmel Valley Road.

On an on-going basis, the applicant and/or successors and assigns shall maintained screening vegetation in perpetuity to ensure the equipment area is screened from public views on Carmel Valley Road.

10. PWSP01 - NON-STANDARD CONDITION

Responsible Department: Public Works Department

Condition/Mitigation Monitoring Measure: Obtain an encroachment permit from the Department of Public Works to construct facilities within the County right of way. (RMA - Public Works)

Compliance or Monitoring Action to be Performed: Prior to construction of the project, the applicant, Verizon Wireless and/or successors and assigns, shall obtain an encroachment permit from DPW prior to issuance of building permits and complete improvement prior to occupying or commencement of use. Applicant is responsible to obtain all permits and environmental clearances.

PROPRIETARY INFORMATION THE INFORMATION CONTAINED IN THIS SET OF DOCUMENTS IS PROPRIETARY BY NATURE. ANY USE OR DISCLOSURE OTHER THAN THAT WHICH RELATED TO VERIZON WIRELESS IS STRICTLY PROHIBITED.	
SITE NAME: ROBINSON ROAD AND CARMEL VALLEY	
(Preliminary Address) SS 101421 RD. CARMEL CA9324 C.E.S. PROJECT NO: _____	

GENERAL NOTES AND CONDITIONS	
PRODUCTS & SUBSTITUTIONS	<p>1. Submit 3 copies of each request for substitution, in each specification section and drawing numbers and complete with the required details for substitutions.</p> <p>2. Submit all necessary product data and descriptions of items, products & materials to be used, including the source and date of manufacture, as well as the standard specification or drawing number.</p> <p>3. Submit all necessary detail drawings, including the required dimensions, which fully describe the items, products & materials to be used, including the source and date of manufacture, as well as the standard specification or drawing number.</p> <p>4. Submit a plan indicating the method of manufacture and the quality of the products anticipated and the characteristics of the work will be based on permitted by the owner without issuing a change order.</p>
CODE COMPLIANCE	<p>1. All work shall be in accordance with applicable laws, codes and regulations.</p> <p>2. The latest regulations of the following:</p> <ul style="list-style-type: none"> ✓ California Building Code ✓ Uniform Plumbing Code ✓ Uniform Mechanical Code ✓ California Electrical Code ✓ California Fire Marshal Code
CONFLICTS	<p>1. The contractor shall be responsible for coordination of all documents at the site before proceeding with any contractual work, no extra charge or compensation shall be made for documents or conditions that may be entered into or found on other construction documents.</p> <p>2. Any conflict in the construction documents which may result in changes to the contract, shall be resolved by the contractor or his subcontractors with the owner.</p>
PROPERTY LINE	<p>1. The contractor shall, at their own expense, carry and maintain for the duration of the project all insurance as required and specified in a project manager's memo, as well as a specific point of reference.</p> <p>2. Contractor shall not commence with their work until they have received an original certificate of insurance stating all coverage to the owner.</p> <p>3. The owner shall be named as an additional insured on all policies.</p> <p>4. Refer to the master agreement for required insurance limits.</p>
ADMINISTRATION	<p>1. Before the commencement of any work, the contractor will furnish a project manager, which will act as a single point of reference, manager will be giving a master schedule to the owner prior to the commencement of any work.</p> <p>2. Submit a data base requested for convenience time table, which will include all major milestones, subcontractor, vendor and supplier information along with a copy of the project manager's memo, advance notice of changes in the schedule, mark up project manager's memo.</p> <p>3. Prior to commencing construction, the owner shall, schedule an appointment with the project manager, contractor, local telephone company, tower land owner representative, local utility companies, tower engineer, tower service provider, and all other relevant parties.</p> <p>4. Contractor shall be equipped with some means of constant communication, such as a mobile phone or a radio. This wireless service to be furnished by the owner, nor will wireless service to be furnished by any other party.</p> <p>5. During construction, contractor must provide two employees and subcontractors wear hard hats at all times, employees must keep all personal effects off the equipment area.</p>
WARRANTIES & BONDS	<p>1. Contractor is responsible for application and payment of the fee, master contractor services agreement for additional details.</p>
STORAGE	<p>1. A material shed is located in a level, and dry fashion and is measured north/south and east/west. It is not necessary that the storage meet all recommendations of the city.</p>
PARKING METER/STREET SIGN	<p>3. Storage area must meet all requirements of the city.</p> <p>4. Temporary sign equipment to be stored in ramack jobmaster tool box.</p>
FIRE HYDRANT	<p>1. General construction, electrical, and antenna splices are integrated in performance of the work. The contractor must submit requests for substitutions in the form of a written proposal and description of the proposed substitutions, the contractor further agrees to defend and indemnify the owner from loss or damage resulting from any claim of liability for damage to these facilities.</p>
UTILITY POLE	<p>1. Change orders may be initiated by the owner and/or the contractor, the owner shall prepare a written proposal, describing the change in work on material and/or change in the contract responsibility of the contractor.</p> <p>2. Requests for substitutions shall be submitted to the owner for review and approval.</p> <p>3. Requests for substitutions may be submitted to the owner for review and approval.</p>
RELATED DOCUMENTS AND COORDINATION	<p>1. Change orders may be initiated by the owner and/or the contractor, the owner shall prepare a written proposal, describing the change in work on material and/or change in the contract responsibility of the contractor.</p> <p>2. Requests for substitutions shall be submitted to the owner for review and approval.</p>
UTILITY VALVE	<p>1. Complete inventory of construction materials and equipment is required prior to start construction.</p>
UTILITY MANHOLE	<p>6. Notify the owner, project manager in writing no less than 48 hours in advance of concrete pours, tower erection, and equipment placement.</p> <p>9. Construction manager is due complete with detailed top photos for sample, closeout packages. See project manager.</p>
ROOF VENT	<p>CLEAN UP</p> <p>1. The contractor shall, at all times, keep the site free from accumulation of waste materials or rubbish caused by their operations and shall remove the same from the worksite including all their tools, scaffolding and surplus materials as soon as they are no longer required for use.</p> <p>2. Visually inspect exterior surfaces and remove all traces of soil, waste materials, shingles & other foreign material.</p> <p>3. Remove all traces of spashed materials from adjacent surfaces.</p> <p>4. If necessary to achieve a uniform degree of cleanliness, hose down the exterior of the structure.</p>
SEWER MANHOLE	<p>1. Construction shall begin shop drawings as required and listed in these drawings to be owner approved.</p>
SQUARE VENT	<p>2. All shop drawings shall be reviewed checked and corrected by contractor or owner to be submitted to the owner.</p>
ROAD VENT	<p>HAND-UP RAMPS</p>
DIG-ALERTS	<p>1. Contact local gas, water, sewer and electric companies.</p>
FIELD SYMBOLS	<p>2. GENERAL NOTES</p> <p>1. GENERAL NOTES</p>

Project Title: COUNTY OF MONTEREY (VERIZON WIRELESS)

File Number: PLN130040

File Type: PC

Planner: LISTER

Location: COUNTY RIGHT-OF-WAY NEAR THE INTERSECTION OF EDDY RD & CARMEL VALLEY RD

Project Description:

Use Permit and Design Approval to allow the development of a commercial wireless communications facility including a 47 foot high utility pole with six (6) panel antennas mounted on two 10 foot double cross-arms, and a 312 square foot equipment pad for associated cabinets. The facility will be located at a turnout on Carmel Valley Road in the County right-of-way, near the intersection Eddy Road and Carmel Valley Road, Carmel Valley (no Assessor's Parcel Number associated with the project), Carmel Valley Master Plan.

Was the Owner/Applicant/Representative Present at Meeting? Yes No _____

Lily Lim, Core Development Services

Was a County Staff/Representative present at meeting? John Ford & Steve Mason (Name)

PUBLIC COMMENT:

Name	Site Neighbor?		Issues / Concerns (suggested changes)
	YES	NO	
Christine Williams		X	Too tall, right in the middle of the view up the valley from the road Move to a more northerly site
Chris Richer	X		Visual impact from the road is terrible

LUAC AREAS OF CONCERN

Concerns / Issues (e.g. site layout, neighborhood compatibility; visual impact, etc)	Policy/Ordinance Reference (If Known)	Suggested Changes - to address concerns (e.g. relocate; reduce height; move road access, etc)
John Anzini	Visual Impact from road	Find a better location

ADDITIONAL LUAC COMMENTS

Too tall in wrong place

RECOMMENDATION :

Motion by: John Anzini (LUAC Member's Name)

Second by: Judy McClelland (LUAC Member's Name)

Support Project as proposed

Recommend Changes (as noted above)

Continue the Item

PUBLIC COMMENT:

Name	Site Neighbor?		Issues / Concerns (suggested changes)
	YES	NO	
Alan Marks	X		Terrible intrusion in the view
Ross Hirschhorn	X		In your face intrusion
Christinge Williams CVA		X	Alternative sites not serious because they were below the road
Mary Gawain	X		Makes the current pole problem worse

LUAC AREAS OF CONCERN

Concerns / Issues (e.g. site layout, neighborhood compatibility; visual impact, etc)	Policy/Ordinance Reference (If Known)	Suggested Changes - to address concerns (e.g. relocate; reduce height; move road access, etc)
Too visible a location		Search for a better location

ADDITIONAL LUAC COMMENTS

None
