#### MONTEREY COUNTY ZONING ADMINISTRATOR

Meeting: January 25, 2007	Time:	Agenda Item No.:	
Project Description: Combi	ned Development	Parmit consisting of: (1) a Use Permit for t	ha ramo

**Project Description:** Combined Development Permit consisting of: (1) a Use Permit for the remove of 62 protected oak trees and one Manzanita; (2) a Use Permit for development on slopes in excess 30%; (3) an Administrative Permit for development within a Site Plan Review zoning district or "district to allow the construction of a split level 5,388 sq. ft. single family dwelling with an attach 1,134 sq. ft. four-car garage, a detached 640 sq. ft. one-story Guesthouse, a 270 linear foot retaini wall, a 2,597 sq. ft. pool deck, a 284 sq. ft. master suite deck, a 1,250 sq. ft. deck at north elevation septic disposal system, and grading (approx. 1,169 cu. yds. cut/1,043 cu. yds. fill); (4) Administrative Permit for a 1,195 sq. ft. one-story Caretaker Unit with detached 440 sq. ft. carport a septic disposal system; and (5) a Design Approval. The property is located at 13 Cantera Run, Carm (Assessor's Parcel Number 239-011-023-000), Santa Lucia Preserve, Greater Monterey Peninst Area

Alca.						
Project Location: 13 Cantera Run, Carmel APN: 239-011-023-000						
Planning File Number: DI N060548  Name: The SCHOMAC Group Inc.,						
Planning File Number: PLN060548  Property Owners						
Plan Area: Greater Monterey Peninsula Area Plan Flagged and staked: Yes						
<b>Zoning Designation:</b> "RC/40-D-S" [Resource Cons	servation, 40 acres per unit with Design Control					
and Site Plan Review zoning district overlays]						
CEQA Action: Categorically Exempt per Section 15303(a)						
<b>Department:</b> RMA - Planning Department						

#### **RECOMMENDATION:**

Staff recommends that the Zoning Administrator approve the Combined Development Permit based on the Findings and Evidence (**Exhibit C**) and subject to the recommended Conditions (**Exhibit D**).

#### PROJECT OVERVIEW:

See attached Exhibit B.

#### OTHER AGENCY INVOLVEMENT:

- ✓ Carmel Valley Fire Protection District
- ✓ Public Works Department
- ✓ Environmental Health Division
- ✓ Water Resources Agency

The above checked agencies and departments have reviewed this project. Conditions recommended by the Carmel Valley Fire Protection District, Public Works Department, Environmental Health Division, and Water Resources Agency have been incorporated into the condition compliance reporting plan (**Exhibit D**).

The project was not referred to a Land Use Advisory Committee (LUAC) for review; no LUAC exists for this area of the county.

Note: The decision on this project is appealable to the Planning Commission

Elisa Manuguerra, Assistant Planner (831) 755-5179, manuguerrae@co.monterey.ca.us January 11, 2007

This report was reviewed by Laura Lawrence, Planning and Building Service Manager.

# EXHIBIT B DISCUSSION

The subject residential project is proposed within a designated 2.76-acre building envelope on a 19.04-acre parcel within the Santa Lucia Preserve. The project components include:

- the construction of a single-family dwelling with attached garage,
- a detached Guesthouse,
- a detached Caretaker Unit with detached carport,
- the removal of 62 protected coast live oak trees and one Manzanita,
- the installation of septic disposal system,
- retaining walls,
- and grading (approx. 1,169 cu. yds. cut/1,043 cu. yds. fill)

A dense stand of oaks trees of fair condition covers the parcel. Considering the topography and the dense stand of oaks, development within the building envelope or homeland boundary of this parcel requires a balance between tree removal and grading. The balance is composed of the need for the driveway and auto court to meet fire department code requirements of less than 15% slope for fire vehicles, the need to provide for emergency vehicle truck turn-around requirements, and compliance with Health Department setback requirements for a septic system disposal and an alternate disposal field. The project design has been revised several times to avoid the removal of larger oaks.

#### Tree Removal

The parcel, specifically the homeland area, is dominated by moderately dense woodland composed almost exclusively of coast live oak of all ages and sizes with a few Madrones intermixed. Sixty-two oak trees are proposed for removal. The application requests the removal of three dead oak trees; two trees of 6-23" in diameter at breast height (dbh) and one tree of 13-23" dbh. As well as the removal coast live oak trees as follows: 23 trees of 6-23" in diameter at breast height (dbh), 35 trees of 13-23" dbh, and one landmark coast live oak exceeding 24" dbh.

On February 6, 1996, the Board of Supervisors certified the final Environmental Impact Report (EIR No. 94-005) for the Santa Lucia Preserve. A component of the EIR examined a "worse case" scenario regarding complete tree removal for each building envelope (with trees) proposed in the map for the Santa Lucia Preserve. This parcel, Lot No. 185 (formerly SJ-2) of the Rancho San Carlos subdivision was not allotted tree removal for the building site. While this project proposes to remove 62 trees, exceeding the tree removal allotment for this parcel, the environmental implications of tree removal within the designated building envelopes have already been addressed in the aforementioned EIR. Applicable mitigation measures from the EIR are incorporated as conditions of approval and include: a 3:1 replacement ratio for protected trees, a 5:1 replacement ratio for landmark trees and a preconstruction survey for protected wildlife. See conditions 9 and 17.

According to the Forest Management Plan prepared by Staub Forestry and Environmental Consulting for the parcel, the proposed tree removal represents an approximate 4% loss of all the trees existing on the parcel. The parcel will maintain an estimated 80% of the tree canopy within the building envelope after tree removal. Efforts to save large oaks include the incorporation of oak trees in the northern patio areas and the use of a tree well adjacent to the motor court area. Moreover, the Forest Management Plan supports that no other feasible sites on the property have lower tree density; resiting the residence elsewhere would require the removal of significantly larger trees.

### Development on Slopes

A slope density map prepared for this application dated October 25, 2006 illustrates a majority of slopes in excess of 30% on this parcel found along the western homeland border and that a majority of the homeland area does not consist of slopes in excess of 30%. Portions of the residential development proposed on natural slopes in excess of 30% include the detached Guesthouse, a small portion of the residence at the northwest and small portion of the driveway. Staff finds that the proposed residence is sited on the flattest portion of the building envelope. Grading (approximately approx. 1,169 cubic yards cut/1,043 cubic yards fill) appears to be appropriate for the given configuration and topography of the driveway location and pad area of the building. Conditions have been incorporated requiring a geotechnical certification, restoration of natural materials, and native landscaping. See Conditions No.s 5, 6, and 12.

#### Conclusions

The proposed residential development is consistent with the General Plan and applicable Zoning designations. The project design avoids tree removal, incorporates tree protection, and minimizes development on slopes exceeding 30%. The materials and color treatments chosen for the residence and improvements blend with the natural landscape and are in keeping with materials and treatment approved for other residences and structures in the Santa Lucia Preserve.

# EXHIBIT C RECOMMENDED FINDINGS AND EVIDENCE

- **1. FINDING:** CONSISTENCY The project, as described in Condition No. 1 and as conditioned, conforms to the policies, requirements, and standards of the Monterey County General Plan, the Greater Monterey Peninsula Area Plan, the Monterey County Zoning Ordinance (Title 21), and the Comprehensive Development Plan for the Santa Lucia Preserve, which designates this area as appropriate for residential development.
  - **EVIDENCE:** (a) The text, policies, and regulations in the above referenced documents have been evaluated during the course of review of applications. No conflicts were found to exist. No communications were received during the course of review of the project indicating any inconsistencies with the text, policies, and regulations in these documents.
    - (b) The property is located at 13 Cantera Run, Carmel (Assessor's Parcel Number 239-011-023-000), Greater Monterey Peninsula Area Plan. The parcel is zoned "RC/40-D-S" or Resource Conservation, 40 acres per unit with Design Control, and Site Plan Review zoning district overlays. The subject property complies with all rules and regulations pertaining to zoning uses and any other applicable provisions of Title 21, and is therefore suitable for the proposed development.
    - (c) The project for a single-family dwelling with attached garage and Guesthouse are a use allowed in accordance with Sections 21.36.030(A) and (B) and is consistent with the development standards of Section 21.36.060 and 21.64.020 of the Monterey County Zoning Ordinance (Title 21).
    - (d) Design Control or "D" zoning requires design review of structures to assures the protection of the public viewshed, neighborhood character, and the visually integrity of certain developments without imposing undue restrictions on private property. The project design, materials, and color treatments chosen for the residence and improvements blend with the natural landscape and are in keeping with materials and treatment approved for other residences and structures in the Santa Lucia Preserve.
    - (e) The project planner conducted a site inspection on June 19, 2006 to verify that the project on the subject parcel conforms to the plans listed above.
    - (f) The project was not referred to a Land Use Advisory Committee (LUAC) for review; no LUAC exists for this area of the county.
    - (g) The application, project plans, and related support materials submitted by the project applicant to the Monterey County Resource Management Agency Planning Department for the proposed development found in Project File PLN060548.
- **2. FINDING: SITE SUITABILITY** The site is physically suitable for the use proposed.
  - **EVIDENCE:** (a) The project has been reviewed for site suitability by the following departments and agencies: RMA Planning Department, Carmel Valley Fire Protection District, Public Works, Environmental Health Division, and Water Resources Agency. There has been no indication from these departments/agencies that the site is not suitable for the proposed development. Conditions recommended have been incorporated.

- (b) A "Forest Management Plan" was prepared for this parcel by Staub Forestry and Environmental Consulting, dated August 2006 (Library No. LIB060624) which supports that there are no physical or environmental constraints that would indicate the site is not suitable for the use proposed.
- (c) The project site is located within a Seismic Zone IV. County Code does not require or a geological or geotechnical report. Resolution No. 94-005, Condition No. 4, requires that the design and construction of buildings comply with the Uniform Building Code Zone IV criteria, subject to verification by the Director of RMA-Building Department prior to the issuance of building permits and prior to final occupancy of habitable structures. See Condition No. 14.
- (d) Staff conducted a site visit on June 19, 2006 to verify that the site is suitable for this use.
- (e) Materials in Project File PLN060548.

#### 3. FINDING: TREE REMOVAL (Minimum Required and Adverse Environmental Impacts)

- The project, as conditioned, is consistent with the regulations for Preservation of Oak and Other Protected Trees, Section 21.64.260.D of the Monterey County Zoning Ordinance (Title 21). As such, the proposed tree removal is the minimum required under the circumstances of the case and will not involve a risk of adverse environmental impacts. The project proposes the removal of 59 coast live oak trees are proposed for removal consisting of the following: 23 trees of 6-23" in diameter at breast height (dbh), 35 trees of 13-23" dbh, and one landmark coast live oak exceeding 24" dbh.

- **EVIDENCE:** (a) The Santa Lucia Preserve Environmental Impact Report, Resolution No. 94-005, Planning File No. PC94067 and PC94218, allowed the removal of 451 protected trees for building sites and 1,029 protected trees for roads and driveways subject to the recommendations prescribed by the "Rancho San Carlos Forest Management Plan" prepared by Ralph Osterling Consultants, Inc., San Mateo, February 18, 1984. The subject parcel, Lot No. 25 (formerly M-35) of the Rancho San Carlos Subdivision was not allotted the removal of protected trees within the building site or homeland area. Tree removal for building sites not approved by the Rancho San Carlos Building Site Tree Removal Summary as contained within the "Rancho San Carlos Forest Management Plan" requires a Use Permit to County Code. As such, the applicant requests a Use Permit pursuant to Condition No. 27 of Resolution No. 94-005 and Section 21.64.260.D.3 of the Monterey County Zoning Ordinance (Title 21).
  - (b) The parcel, specifically the homeland area, is dominated by moderately dense woodland composed almost exclusively of coast live oak of all ages and sizes with a few Madrones intermixed. According to the Forest Management Plan prepared by Staub Forestry and Environmental Consulting for the parcel, the proposed tree removal represents an approximate 4% loss of all the trees existing on the parcel. The parcel will maintain an estimated 80% of the tree canopy within the building envelope after tree removal. Efforts to save large oaks include the incorporation of oak trees in the northern patio areas and the use of a tree well adjacent to the motor court area. Moreover, the Forest Management Report supports that no other feasible sites on the property have lower tree density; re-siting the residence elsewhere would require the removal of significantly larger trees.

- (c) Conditions of approval have been incorporated requiring a pre-construction survey for the protection of wildlife plant and wildlife species, the implementation of erosion control measures, and best management practices, Condition No.s 7 and 17. As conditioned, staff finds that the proposed tree removal will not involve a risk of adverse environmental impacts such as soil erosion, water quality, ecological impacts, noise pollution, air movement, or wildlife habitat.
- (d) The Monterey County Zoning Ordinance, Section 21.64.260.D.4 requires replacement at a rate of 1:1 for protected tree species removed. However, the Santa Lucia Preserve EIR requires implementation of Mitigation Measure No.s 27 and 35 (see Condition No. 9) requiring the replacement of non-landmark oak trees at a 3:1 ratio and replace landmark trees at a 5:1 ratio. Replacement trees are to be monitored for a period of not less than 5 years after planting and must attain a success ratio threshold of no less than 90%.
- (e) The application, plans, and related support materials submitted by the project applicant to the Monterey County RMA Planning Department for the proposed development, found in Project File PLN060548.
- (f) Staff conducted an on-site inspection on June 19, 2006 to verify that the proposed tree removal plan is consistent with the site conditions.
- **4. FINDING:** TREE REMOVAL (Health) The tree(s) proposed for removal is/are diseased, injured, in danger of falling too close to existing or propped structures, creates unsafe vision clearance, or is likely to promote the spread of disease. The application requests the removal of three dead oak trees; two trees of 6-23" in diameter at breast height (dbh) and one tree of 13-23" dbh.
  - **EVIDENCE:** (a) The Forest Management Plan prepared for this parcel by Staub Forestry and Environmental Consulting, dated August 2006 (Library No. LIB060624).
    - (b) The subject parcel, Lot No. 25 (formerly M-35) of the Rancho San Carlos Subdivision was not allotted the removal of protected trees within the building site. This permit allows for the removal of three dead oak trees and implements Santa Lucia Final EIR Mitigation Measure 27 requiring the replacement of non-landmark oak trees at a 3:1 ratio and replace landmark trees at a 5:1 ratio.
    - (c) The application, plans, and related support materials submitted by the project applicant to the Monterey County RMA - Planning Department for the proposed development, found in Planning File PLN060548.
- **5. FINDING: DEVELOPMENT ON SLOPES IN EXCESS OF 30%** The project, as conditioned, is consistent with the Regulations for Development on Slopes in Excess of 30%, Section 21.64.230 of the Monterey County Zoning Ordinance (Title 21). As such, there exists no feasible alternative which would allow development to occur on slopes less than 30%.
  - **EVIDENCE:** (a) The subject residential project site is proposed within a 2.76-acre building envelope, or homeland area, on a 19.04-acre parcel within the Santa Lucia Preserve. A slope density map prepared for this application dated October 25, 2006 (Exhibit H of January 25, 2007 Staff Report) illustrates that a majority of slopes in exceeding 30% on this parcel are found along the western homeland border and that a majority of the parcel does not consist of slopes in excess of 30%. Portions of the residential development proposed on natural slopes in

proposed on natural slopes in excess of 30% include the detached Guesthouse, a small portion of the residence at the northwest and small portion of the driveway. Staff finds that the residence is sited on the flattest portion of the building envelope. Conditions have been incorporated requiring a geotechnical certification, restoration of natural materials, and native landscaping. See Conditions No.s 5, 6, and 12.

- (b) The project site is located within a Seismic Zone IV. County Code does not require or a geological nor geotechnical report. Resolution No. 94-005, Condition No. 4, requires that the design and construction of buildings comply with the Uniform Building Code Zone IV criteria, subject to verification by the Director of RMA-Building Department prior to the issuance of building permits and prior to final occupancy of habitable structures. See Condition No. 14.
- (c) The Slope Map submitted October 25, 2006 with areas exceeding 30% slopes shaded (Exhibit H of January 25, 2007 Staff Report).
- (d) The application, plans, and related support materials submitted by the project applicant to the Monterey County Planning and Building Inspection Department for the proposed development found in Planning File No. PLN060548.
- (e) Staff conducted an on-site inspection on June 19, 2006 to verify that no feasible alternative exists.
- **7. FINDING:** CARETAKER UNIT In order to grant the Administrative Permit for the proposed Caretaker Unit, the Zoning Administrator shall make the following findings:
  - 1. Pursuant to Section 21.64.030.D.1, the establishment, maintenance, or operation of the use or building applied for will not under the circumstances of the particular case, be detrimental to the health, safety, peace, morals, comfort, and general welfare of persons residing or working in the neighborhood or to the general welfare of the County.
  - 2. Pursuant to Section 21.64.030.D.2, the proposed project, as conditioned, is consistent and complies with the regulations for Caretaker's Units, as provided at Chapter 21.64 of the Monterey County Zoning Ordinance (Title 21).
  - 3. Pursuant to Section 21.64.030.D.3, the proposed Caretaker's Unit complies with all applicable requirements of the Low Density Residential, Design Control, and Site Plan Review ("LDR/1-D-S") districts as provided at Chapters 21.14, 21.44, and 21.45 of the Monterey County Zoning Ordinance (Title 21).
  - 4. Pursuant to Section 21.64.030.D.4, adequate sewage disposal and water supply facilities exist or are readily available to the site, as approved by the Director of Environmental Health.

**EVIDENCE:** (a) The project as described in the application and accompanying materials was reviewed by the Planning Department, Carmel Valley Fire Protection District, Public Works Department, Environmental Health Division, and the Water Resources Agency. The respective departments have recommended conditions, where appropriate, to ensure that the project will not have an adverse effect on the health, safety, and welfare of persons either residing or working in the neighborhood; or the county in general.

- (b) The project for a Caretaker Unit is a use allowed use subject securing an Administrative Permit in accordance with Section 21.14.040.C and is consistent with the development standards of Section 21.14.060 and the regulations for Caretaker Units as provided at Section 21.64.030.
- (c) The project complies with the regulations for Caretaker Units in accordance with Section 21.44.020. Design Approval has been incorporated into the project.
- (d) The project complies with the regulations for Design Control Zoning Districts in accordance with Chapter 21.44 of the Monterey County Zoning Ordinance (Title 21).
- (e) The project complies with the regulations for Site Plan Review Zoning Districts in accordance with Chapter 21.45 of the Monterey County Zoning Ordinance (Title 21). An Administrative Permit has incorporated pursuant to Section 21.45.040.A and B, which requires an Administrative Permit for all development within a Site Plan Review Zoning District.
- (f) The application, plans, and related support materials were reviewed by the Environmental Health Department during Inter-Departmental Review (IDR) October 9, 2006 to December 5, 2006.
- (g) See Finding No. 8, Health and Safety.
- (h) Staff conducted a site inspection on June 19, 2006 to verify that the project would not present adverse impacts to the general welfare of persons residing or working in the neighborhood or to the general welfare of the County.
- (i) Materials in Planning File No. PLN060548.
- **6. FINDING:** CEQA (Exempt): The project is categorically exempt from environmental review.
  - **EVIDENCE:** (a) California Environmental Quality Act (CEQA) Guidelines Section 15303(a) and categorically exempts single-family dwellings and small accessory structures such as Guesthouses and Caretaker Units.
    - (b) The development is largely contained in an area established by the Final EIR for the Santa Lucia Preserve (EIR 94-005), Planning File No.s PC94067 and PC94218, State Clearinghouse No.s SCH# 940083019 and 95023036, as an area for disturbance (pre-determined building site).
    - (c) The project, as conditioned is consistent with the conclusions and mitigations contained in the certified Santa Lucia Preserve Final EIR No. 94-005, Planning File No.s PC94067 and PC94218, State Clearinghouse No.s SCH# 940083019 and 95023036.
    - (d) No significantly adverse environmental impacts were identified during staff review of the development application during the site visit on June 19, 2006.
- **7. FINDING:** NO VIOLATIONS The subject property is in compliance with all rules and regulations pertaining to zoning uses, subdivision, and any other applicable provisions of the County's zoning ordinance. No violations exist on the property. Zoning violation abatement costs, if any, have been paid.
  - **EVIDENCE:** Staff reviewed Monterey County RMA Planning Department and Building Services Department records and is not aware of any violations existing on subject property.
- **8. FINDING: HEALTH AND SAFETY -** The establishment, maintenance, or operation of the project applied for will not under the circumstances of this particular case be

detrimental to the health, safety, peace, morals, comfort, and general welfare of persons residing or working in the neighborhood of such proposed use, or be detrimental or injurious to property and improvements in the neighborhood or to the general welfare of the County.

**EVIDENCE:** Preceding findings and supporting evidence.

9. FINDING: APPEALABILITY - The decision on this project is appealable to the Planning

Commission.

**EVIDENCE:** Section 21.80.040.B Monterey County Zoning Ordinance (Title 21).

## **EXHIBIT D**

# Monterey County Resources Management Agency Planning Department Condition Compliance Reporting Plan

**Project Name:** The SCHOMAC Group Inc.

**File No:** PLN060548 **APNs:** 239-011-023-000

**Approved by:** Zoning Administrator **Date:** January 25, 2007

\*Monitoring or Reporting refers to projects with an EIR or adopted Mitigated Negative Declaration per Section 21081.6 of the Public Resources Code.

Permit Cond. Number	Mitig. Number	Conditions of Approval and/or Mitigation Measures and Responsible Land Use Department	Compliance or Monitoring Actions to be performed. Where applicable, a certifi professional is required for action to be accepted.		Timing	Verification o Compliance (name/date)
1.		PD001 - SPECIFIC USES ONLY  This Combined Development Permit (PLN060548) allow Combined Development Permit consisting of: (1) a UP Permit for the removal of 62 protected oak trees and of Manzanita; (2) a Use Permit for development on slopes excess of 30%; (3) an Administrative Permit development within a Site Plan Review zoning district "S" district for the construction of a split level 5,388 sq. single family dwelling with an attached 1,134 sq. ft. for car garage, a detached 640 sq. ft. one-story Guesthouse 270 linear foot retaining wall, a 2,597 sq. ft. pool deck 284 sq. ft. master suite deck, a 1,250 sq. ft. deck at no elevation, a septic disposal system, and grading (approximately 1,169 cu. yds. cut/1,043 cu. yds. fill); (4) an Administrative Permit for a 1,195 sq. ft. one-story Caretaker Unit we detached 440 sq. ft. carport and septic disposal system; a (5) a Design Approval. The property is located at Cantera Run, Carmel (Assessor's Parcel Number 239-01023-000), Santa Lucia Preserve, Greater Monter Peninsula Area. This permit was approved in accordar with County ordinances and land use regulations subject the following terms and conditions. Neither the uses in the construction allowed by this permit shall commer unless and until all of the conditions of this permit are in		Owner/ Applicant	Ongoing unless otherwise stated
