### RECOMMENDATION:

Staff recommends that the Zoning Administrator adopt a resolution (**Exhibit B**) to:

- 1) Categorically Exempt the Use Permit per CEQA Guidelines Section 15301
- 2) Approve PLN090182, based on the findings and evidence and subject to the conditions of approval (**Exhibit B**):

### PROJECT OVERVIEW:

The subject application request, if approved, will renew and amend an expired Use Permit (ZA95014) for a private riding club. The Indian Springs Ranch Home Owners Association owns, operates, and maintains a 71 acre parcel as an equestrian center. The permit being amended (ZA95014) was conditioned for a maximum of 70 horses. Conditions of approval of the original Use Permit stipulated that any intensification in use or horses above 70 would require a new Use Permit.

In 2005, the applicant submitted an application request (PLN050322) to extend and amend their Use Permit. However, an application was not given out per request, and the applicant failed to follow-up. In 2009, the applicant contacted the Planning Department to renew and amend the expired Use Permit. On March 25, 2010 this application was continued by the Zoning Administrator to allow staff time to respond to comments received from the public.

Staff conducted a site visit on August 17, 2009 and determined the pasture and drainage-way required additional maintenance. Staff has subsequently drafted conditions (5 & 6) regarding pasture management, and restoration plans. These conditions must be met prior to the upcoming rain season, October 15<sup>th</sup> 2010. A second site visit was conducted on May 6, 2010 in respond to comment letters received prior to the March 25, 2010 Zoning Administrator hearing for this project. Comments specifically addressed the vehicular use of parcels designated for open space and equestrian and pedestrian easements. Staff has included condition 4 addressing the use of the easements.

**OTHER AGENCY INVOLVEMENT:** The following agencies and departments reviewed this project:

- ✓ RMA - Public Works Department
- ✓ Environmental Health Division
- Water Resources Agency

√ Salinas Rural Fire Protection District  
Parks Department

Agencies that submitted comments are noted with a check mark ("√"). Conditions recommended by Salinas Rural Fire Protection District, Environmental Health Division have been incorporated into the Condition Compliance/Mitigation Monitoring and Reporting Plan attached as Exhibit 1 to the draft resolution (**Exhibit B**).

The project was referred to the Toro Land Use Advisory Committee (LUAC) for review. Based on the LUAC Procedure guidelines adopted by the Monterey County Board of Supervisors per Resolution No. 08-338, this application did warrant referral to the LUAC, because of land use issues that necessitate review prior to a public hearing. The LUAC recommended approval as proposed project subject to Health Department approval with a vote of 6 -0.

Note: The decision on this project is appealable to the Planning Commission.

Chair Varney read aloud the project description. He reported receiving a minimum amount of paperwork that included a copy of a map of the site that was signed in 1995 by former Toro LUAC Chair, Warren Sutherland, with the handwritten note that it was subject to approval from the Health Department. Questions about Colonel Sutherland came up and Kennedy reported he still lives in Toro Park Estates and walks his dog everyday.

Varney asked if anyone knew anything about this facility?

LUAC members stated they wished they knew some more about it.

Mike Weaver stated he spoke with a former Real Estate agent who said she remembered that when lots and houses were being sold in this Indian Springs Subdivision that the horse facility and ability to have horses and go horseback riding were a selling point. Mike Weaver stated that the original 1960 Toro Area Plan encouraged horse riding trails in the Toro Area.

It was opined by LUAC members that with 80 horses there must be members of this private facility that live elsewhere. There was consensus on this. Mike Mueller said he drove into the Indian Springs horse facility and had a look at it. It looked to him like a clean, pretty well kept place.

The question arose as to the length of the permit. It had previously come up for renewal in 1995, now was asking for renewal in 2009. Is there a time frame for the renewal of the permit that was being asked for? Questions as to original conditions, size of the facility, length of permit could not be determined as there was not information present. However, it was assumed by the LUAC that all remained the same as previous, except it needed a renewal ok.

Ron Vandergrift stated there was a short report about this upcoming Equestrian Center hearing before the LUAC in a recent "Off 68" Newsletter that goes out to households in the Toro Area and is published by the Salinas Californian. Vandergrift stated he was a believer in hearing from the public on issues in the area. However, he noted, there was no member of the public present at today's hearing, nor he assumed had anyone contacted the LUAC or County about it, so therefore, it looked procedural to him.

Mark Kennedy agreed with Vandergrift and made a motion for recommending approval. Vandergrift seconded this.

Varney asked the maker of the motion and the second if they would be willing to add, "subject to Health Department approval" as had been previously noted on the 1995 site map signed by Warren Sutherland?

Both Kennedy and Vandergrift approved of this.
