

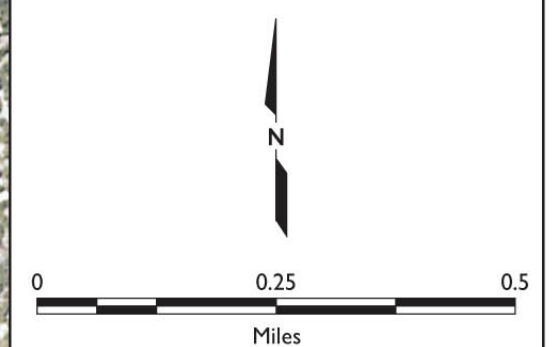

**Figure F2-1  
Preservation Areas in and  
Around Huckleberry Hill  
Natural Area, With and  
Without Project**

**LEGEND**

-  Proposed Project Development Areas
-  Preservation Areas
-  Del Monte Forest Boundary

**NOTES:**

- 1) "Without Project" presumes eventual completion of restoration of Sawmill site per Spanish Bay permit conditions. Image of Sawmill site has been digitally altered to illustrate forest coverage within unvegetated areas that are not wetland areas. Existing trails and fire roads have been presumed to remain within Sawmill site.
- 2) The existing preservation area without project includes the areas in which the Pebble Beach Company has previously dedicated conservation easements to the Del Monte Forest Foundation or to Monterey County to date and the S.F.B. Morse Reserve, which is owned in fee by the Del Monte Forest Foundation.
- 3) "With Project" presumes implementation of proposed development, proposed preservation, and preservation required as mitigation.
- 4) Only a portion of the 233-acre proposed dedication area in Area PQR is shown on this figure. See Figure 2.0-2 in the DEIR for a figure showing the entire area.
