Mr. Thom McCue
Monterey County Panning Department
2620 1st Avenue
Marina, CA 93933

Dear Mr. McCue,

Please accept this letter as commentary I would like to make as a long-time resident of the Del Monte Forest.

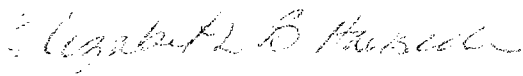

In regards to the new Equestrian Center, my own horseback riding in Del Monte Forest began in 1930, at five years of age. However, my parents, Mr. and Mrs. Olsen M. Haviside rode from the Pebble Beach Stable much earlier than this.

My father was very familiar with the original plan for Pebble Beach, as he sold properties for Mr. Morse. It was part of the original plan of Pebble Beach properties to offer residents in the area and guests at The Lodge exceptional equestrian amenities. This included the close to 40 miles of trail access, both in and outside the Forest.

It is my sincere hope that with the replacement of the current equestrian center, none of the equestrian activities will be compromised in anyway. You and others at the County must realize that the preservation of the original land use intent is only the right thing to do, considering all of the other growth factors we have seen over the past seventy-five years.

Thank you for your support of horseback riding in the Del Monte Forest.

Sincerely,

Elizabeth B. Haviside
