

**PLANNING COMMISSION  
COUNTY OF MONTEREY, STATE OF CALIFORNIA**

RESOLUTION NO. 02028

A.P. # 424-111-005-000

FINDINGS AND DECISION

In the matter of the application of  
**CalTrans (PLN010392)**

for a Use Permit in accordance with Title 21 (Zoning) Chapter 21.74 (Use Permits) of the Monterey County Code, for construction of a 70 ft. co-locatable windmill telecommunication tower and associated ground equipment shelter, located at the CalTrans Rest Stop north of Camp Roberts and west of Highway 101, South County area, came on regularly for hearing before the Planning Commission on May 8, 2002.

Said Planning Commission, having considered the application and the evidence presented relating thereto,

1.     **FINDING:**     Use Permit for as described in condition #1 and as conditioned, conforms to the plans, policies, requirements and standards of the General Plan, the South Monterey County Area Plan, and the Monterey County Zoning Ordinance (Title 21). The property is located at the Cal Trans Rest Stop (Assessor's Parcel Number 424-111-005-000) (within Caltrans Right-of-Way)

The subject parcel is generally located in an area designated for Permanent Grazing or Farmlands with 40 acre minimums, but Monterey County's *Wireless Communication Facilities Ordinance No. 04053*, incorporated into the Monterey County Code, allows wireless telecommunication facilities to be located on any lot or parcel in any zoning district, subject to the findings, evidence presented in this exhibit and the conditions of approval found in Exhibit "B." The subject properties are found in compliance with all rules and regulations pertaining to zoning uses, subdivision, and any other applicable provisions of Title 21. Zoning violation abatement costs, if any, have been paid.

**EVIDENCE:** The Planning and Building Inspection staff reviewed the project, as contained in the application and accompanying materials, for conformity with:

- a)     Monterey County General Plan and the South Monterey County Area Plan;
- b)     applicable regulations from Title 21, Zoning Ordinance.

**EVIDENCE:** The project site is physically suitable for the proposed use as described in the project files. The project has been subject to geologic, soils and geotechnical reports to be assured that the site conditions are appropriate and stable to support the tower. The project is conditioned to include the geotechnical recommendations for construction of the tower in addition to any other technical reports on file for the project. See Planning & Building Inspection Department file Caltrans (PLN010392).

The proposed development has been reviewed by the Monterey County Planning and Building Inspection Department, Water Resources Agency, Public Works, Parks Department, Environmental Health Division, the South County California Department of Forestry Fire Protection District, the Monterey County Agricultural Commissioner's office and the County's Airport Land Use Commission. There has been no indication from these agencies that the sites are not suitable for the proposed developments. The Initial Study prepared for this project demonstrates that no physical or environmental constraints exist that would indicate the site is not suitable for the proposed development when appropriately conditioned.

**EVIDENCE:** The proposed use is consistent with the zoning development standards for the zoning district

listed above pursuant to *Monterey County Ordinance No. 04053, the Wireless Telecommunications Ordinance*, and Title 21, Zoning Ordinance, allowing for quasi-public uses.

**EVIDENCE:** Staff verification of the Monterey County Planning and Building Inspection Department records indicates that no violations exist on the subject property.

**EVIDENCE:** Written and verbal public testimony submitted at public hearings before the Planning Commission.

**EVIDENCE:** The applications, plans, and support materials submitted by the project applicant to the Monterey County Planning and Building Inspection Department for the proposed development as found in the project file PLN010392 (Caltrans ).

**EVIDENCE:** The on-site inspections by the project planners.

2. **FINDING:** The development of the proposed wireless communication facility will not adversely affect any designated public viewing area, scenic corridor, or identified environmentally sensitive area.

**EVIDENCE:** File and application materials; Initial Study; staff report and administrative record; South Monterey County Area Plan.

3. **FINDING:** The chosen site is adequate for the development of the proposed wireless communication facility and the respective applicant has demonstrated that the site is adequate for the provision of telecommunication services as required by the FCC.

**EVIDENCE:** Files with application materials found in Planning & Building Inspection Department file PLN010392 .

4. **FINDING:** The proposed wireless communication facility will not create a hazard for aircraft.

**EVIDENCE:** The location for the tower has been reviewed and recommended for approval by the County's Airport Land Use Commission (ALUC) and the County's Agricultural Commissioner. Also, the telecommunication tower applicant is required to provide proof from the California Public Utilities Commission, the Federal Communications Commission and the Federal Aviation Authority that they have received the appropriate approvals when required.

**EVIDENCE:** The tower requires lighting on top of the tower as an aircraft warning signal, but is required also to have manually-operated, non glare lighting for the ground facility so as not to be obtrusive to surrounding properties.

5. **FINDING:** The proposed project will not have a significant environmental impact.

**EVIDENCE:** The State CEQA Guidelines categorically exempts this project from environmental review pursuant to CEQA Guideline Section 15303(a), Class 3 (exemption for one single family residence), 15061(b)(2) and (3). No potentially adverse environmental impacts were identified during review of the proposed project.

7. **FINDING:** The establishment, maintenance, or operation of the uses or structures applied for will not, under the circumstances of the particular case, be detrimental to health, safety, peace, morals, comfort, and general welfare of persons residing or working in the neighborhood of such proposed uses, or be detrimental or injurious to property and improvement in the neighborhoods, or to the general welfare of the County.

**EVIDENCE:** Preceding findings and supporting evidence.

8. **FINDING:** The Planning Commission's decision on the project is appealable to the Board of Supervisors.

**EVIDENCE:** Section 21.80.040 of the Monterey County Zoning Ordinance (Title 21).

### DECISION

THEREFORE, it is the decision of said Planning Commission that said application be granted as shown on the attached sketch, subject to the following conditions:

1. The subject Use Permit for locating a wireless telecommunication tower on the Cal-Trans property is described as follows: Construction of a 70 foot tall co-locatable "windmill" telecommunication tower and associated ground equipment shelter. The project is located at the Cal Trans Rest Stop (Assessor's Parcel Number 424-111-005-000), north of Camp Roberts and west of Highway 101, South County area.

The proposed projects are in accordance with County ordinances and land use regulations, subject to the following terms and conditions. Neither the use nor the construction allowed by these permits shall commence unless and until all of the conditions of these permits are met to the satisfaction of the Director of Planning and Building Inspection. Any use or construction not in substantial conformance with the terms and conditions of this permit is a violation of County regulations and may result in modification or revocation of this permit and subsequent legal action. No use or construction other than that specified by these permits is allowed unless additional permits are approved by the appropriate authorities. **(Planning and Building Inspection)**

#### **Prior to the Issuance of the Building Permits:**

2. The applicant agrees as a condition and in consideration of the approval of the permit to enter into an indemnification agreement with the County whereby the applicant agrees to defend, indemnify, and hold harmless the County, its officers, agents, and employees from actions or claims of any description brought on account of any injury or damages sustained by any person or property resulting from the issuance of the permit and the conduct of the activities authorized under said permit. The applicant shall obtain permission of the owner on which the wireless communications facility is located to allow the recordation of said indemnification agreement, and the applicant shall cause said indemnification agreement to be recorded by the County Recorder as a prerequisite to the issuance of the building and/or grading permit. The County shall promptly notify each applicant of any such claim, action, or proceeding, and the County shall cooperate fully in the defense thereof. The County may, at its sole discretion, participate in the defense of such action, but such participation shall not relieve applicant of its obligations under this condition. **(Planning & Building Inspection)**
3. Each applicant shall record a notice that states: "A permit (Resolution 02028) was approved by the Planning Commission for Assessor's Parcel Number 424-111-005-000 on May 8, 2002. The permit was granted subject to 21 conditions of approval, which run with the land. A copy of the permit is on file with the Monterey County Planning and Building Inspection Department." Proof of recordation of this notice shall be furnished to the Director of Planning and Building Inspection prior to issuance of building permits or commencement of the use. **(Planning and Building Inspection)**
4. No land clearing or grading shall occur on the subject parcel between October 15 and April 15 unless authorized by the Director of Planning and Building Inspection. **(Planning and Building Inspection)**
5. The Monterey County Airport Land Use Commission (ALUC) requires a steady red light located on the top of the tower. Exterior lighting for the equipment building shall be hooded and shall be located no higher than 10 feet above ground level. Lighting for the equipment building shall be operated by means of an on-off switch and shall be used only during maintenance checks or emergencies. To ensure compliance, applicant shall submit 3 copies of a lighting plan prior to issuance of a building permit illustrating and listing the location and type of lighting fixtures and wattage. Said plan shall also include the red light located on top of the tower. The applicant shall also submit photo-documentation to the Director of Planning and Building Inspection after the lighting has been installed. **(Planning and Building Inspection)**

6. If necessary, new utility and service lines shall be placed underground. **(Planning and Building Inspection)**
7. The applicant shall obtain all required building permits from the Department of Planning and Building Inspection before commencing the operation. **(Planning and Building Inspection)**
8. The applicant shall obtain appropriate approvals from the California Public Utilities Commission and the Federal Communications Commission. **(Planning and Building Inspection)**

**Prior to Final Building Inspection/Occupancy:**

9. The applicant shall contact the F.A.A. to publish a NOTAM (Notice to Airmen) in Monterey County regards the location of the proposed tower. **(Planning and Building Inspection)**
10. The applicant shall agree in writing that, where future technological advances would allow for reduced visual impact of the proposed telecommunication facility, applicant shall make such modifications to the facility as would reduce visual impact as part of the facility's normal replacement schedule. If, in the future, the facility is no longer needed, applicant agrees to abandon the facility, remove all permanent structures, and restore the site consistent with the character of the surrounding vegetation. (Planning and Building Inspection Department) **(Planning and Building Inspection)**

**Continuous Permit Conditions:**

11. If during the course of construction on the subject property, cultural, archaeological, historical, and/or paleontological resources are uncovered at the site (surface or subsurface resources) work shall be halted immediately within 50 meters (165 feet) of the find until it can be evaluated by a qualified professional archaeologist. The Monterey County Planning and Building Inspection Department and a qualified archaeologist (i.e., an archaeologist registered with the Society of Professional Archaeologists) shall be immediately contacted by the responsible individual present on-site. When contacted, the project planner and the archaeologist shall immediately visit the site to determine the extent of the resources and to develop proper mitigation measures required for the discovery. **(Planning and Building Inspection)**
12. All landscaped areas and planted trees shall be continuously maintained by the applicant in a litter-free, weed-free, healthy, growing condition. Antennas and support structures shall be permanently maintained and regularly painted as long as the facility is in operation. **(Planning and Building Inspection)**
13. If, in the future, the facility is no longer needed, the applicant agrees to abandon the facility and remove the monopole, panel antennas and equipment shelter no later than six months after the operation ceases. The lease site shall be restored to its pre-project state and/or consistent in appearance with surrounding vegetation. **(Planning and Building Inspection)**
14. The applicant and/or successors and assigns shall encourage co-location by other wireless carriers on this tower assuming appropriate permits are approved for co-location. New microwave dishes, antennas and/or similar appurtenances located on the tower, which are not approved pursuant to this permit, are not allowed unless the appropriate authority approves additional permits or waivers. In any case, the overall height of the tower shall not exceed the height limit approved by this permit. **(Planning and Building Inspection)**
15. \_\_\_\_\_ (Applicant) and their successors and assigns shall allow additional antennas from other providers to be co-located on their monopole or tower if the Planning Commission approves such co-location. Additionally, \_\_\_\_\_ (Applicant) and their successors and assigns shall allow such antennas to be co-located on another monopole or tower on the same site. In either event, there shall be only

one monopole or tower on the site. **(Planning and Building Inspection Department)**

16. If, as a result of future scientific studies and/or alterations of industry wide standards resulting from such studies, substantial evidence is presented to the County that radio frequency transmissions are in violation of the existing Federal Communications Commission emission standards, the Director of Planning and Building Inspection shall set a public hearing at which time this permit may be revoked or conditions of the permit may be modified. **(Planning and Building Inspection)**
17. The applicant shall submit an operation schedule for the emergency generator to the Director of Environmental Health for review and approval indicating the time of day, duration and frequency of operation of the generator as part of its routine maintenance. The schedule shall be designed to minimize noise impacts to adjacent residential uses. **(Environmental Health)**
18. The design of the emergency generator shall incorporate noise attenuation features subject to the review and approval of the Director of Environmental Health, and shall have the following features at a minimum:
  - A) An insulated enclosure,
  - B) Shock absorbent mounting,
  - C) Latest muffler technology,
  - D) Exhaust baffled and directed away from nearest residences, and
  - E) Use of a diesel engine is prohibited. **(Environmental Health)**

**Prior to the Issuance of the Building Permits:**

19. A notice shall be recorded with the Monterey County Recorder which states: "A Geotechnical Engineering Report has been prepared for this parcel by Krazan and Associates on April 11, 2001. The report is on record in the Monterey County Planning and Building Inspection Department Library. All development shall be in accordance with this report." **(Planning & Building Inspection)**

20. Proposed development shall be setback at least **200** feet from top of bank, as defined in County Floodplain Ordinance #3272, unless a registered geologist, hydrogeologist or civil engineer certifies to the satisfaction of the Monterey County Water Resources Agency that the structure will create no impediment to flood flow or an increase in erosion. **(Water Resources Agency)**
21. Proposed development shall be floodproofed in accordance with County Ordinance #3272, to be certified by a registered civil engineer. **(Water Resources Agency)**

**PASSED AND ADOPTED** this 8th day of May, 2002, by the following vote:

AYES: Errea, Sanchez, Hawkins, Parsons, Brennan, Pitt-Derdivanis, Diehl, Hernandez, Classen, Wilmot  
 NOES: None  
 ABSENT: None

 DALE ELLIS, SECRETARY

Copy of this decision mailed to applicant on

**IF ANYONE WISHES TO APPEAL THIS DECISION, AN APPEAL FORM MUST BE COMPLETED AND SUBMITTED TO THE CLERK OF THE BOARD OF SUPERVISORS ALONG WITH THE APPROPRIATE FILING FEE ON OR BEFORE**

This decision, if this is the final administrative decision, is subject to judicial review pursuant to California Code of Civil Procedure Sections 1094.5 and 1094.6. Any Petition for Writ of Mandate must be filed with the Court no later than the 90<sup>th</sup> day following the date on which this decision becomes final.

NOTES

1. You will need a building permit and must comply with the Monterey County Building Ordinance in every respect.

Additionally, the Zoning Ordinance provides that no building permit shall be issued, nor any use conducted, otherwise than in accordance with the conditions and terms of the permit granted or until ten days after the mailing of notice of the granting of the permit by the appropriate authority, or after granting of the permit by the Board of Supervisors in the event of appeal.

Do not start any construction or occupy any building until you have obtained the necessary permits and use clearances from the Monterey County Planning and Building Inspection Department office in Salinas.

2. This permit expires 2 years after the above date of granting thereof unless construction or use is started within this period.
