

**Before the Zoning Administrator in and for the
County of Monterey, State of California**

In the matter of the application of:

Rachel Blank (PLN090063)

RESOLUTION NO. 090063

Resolution by the Monterey County Zoning
Administrator:

Approving a Combined Development Permit consisting of 1) Coastal Administrative Permit to allow the dismantling and removal of an existing 1,394 square foot mobile home and replacement with a two-story 2,027 square foot prefabricated single family dwelling, installation of a new septic system, and grading of 481 cubic yards of cut and fill and 2) a Coastal Development Permit to allow installation of an underground water line across slopes exceeding 25%. (PLN090063, Blank, 8761 Dyer Road, North County Land Use Plan (APN: 129-021-052-000))

The Blank application (PLN090063) came on for public hearing before the Monterey County Zoning Administrator on July 30, 2009. Having considered all the written and documentary evidence, the administrative record, the staff report, oral testimony, and other evidence presented, the Zoning Administrator finds and decides as follows:

FINDINGS

1. **FINDING:** **CONSISTENCY** – The Project, as conditioned, is consistent with the applicable plans and policies which designate this area as appropriate for development.
EVIDENCE: a) During the course of review of this application, the project has been reviewed for consistency with the text, policies, and regulations in:
 - the Monterey County General Plan,
 - North County Coastal Land Use Plan,
 - North County Coastal Land Use Plan, Implementation Plan,
 - Monterey County Zoning Ordinance (Title 20)No conflicts were found to exist. No communications were received during the course of review of the project indicating any inconsistencies with the text, policies, and regulations in these documents.
b) The property is located at 8761 Dyer Road (Assessor's Parcel Number 129-021-052-000, North County Coastal Land Use Plan. The parcel is zoned LDR/2.5 (CZ) [Low Density Residential, 2.5 acres per unit (Coastal Zone)], which allows placement of a single family dwelling on a single lot. Therefore, the project is an allowed land use for this site.
c) The project planner conducted a site inspection on March 11, 2009 to verify that the project on the subject parcel conforms to the plans listed above.
d) Development on slopes in excess of 25% is prohibited unless there is no feasible alternative that would allow development to occur on slopes of less than 25%, or the proposed development better achieves the goals,

policies and objectives of the Monterey County General Plan and the North County Coastal Land Use Plan than other development alternatives. In this particular case the new water tanks on the adjacent parcel and corresponding water lines will provide better water pressure and improved fire flow. The extension of the water lines from the adjacent property will involve trenching down slopes in excess of 25%, but this will not result in a permanent alteration to the topography. This is a short term impact and the area in which the trenching will be done can and will be completely restored to the natural condition. This proposal does not permanently alter any slopes in excess of 25% and is thus in conformance with the goals and policies of the Zoning Ordinance and the North County Land Use Plan.

- e) The project was referred to the North County Coastal Land Use Advisory Committee (LUAC) for review. This application was sent to the LUAC as a courtesy. The LUAC did not have any concerns with the proposed project and recommend approval with a 4-0 vote.
- f) The application, project plans, and related support materials submitted by the project applicant to the Monterey County RMA - Planning Department for the proposed development found in Project File PLN090063.

2. **FINDING:** **SITE SUITABILITY** – The site is physically suitable for the use proposed.

- EVIDENCE:**
- a) The project has been reviewed for site suitability by the following departments and agencies: RMA - Planning Department, North County Fire Protection District, Public Works, Environmental Health Division, and Water Resources Agency. There has been no indication from these departments/agencies that the site is not suitable for the proposed development. Conditions recommended have been incorporated.
 - b) Staff conducted a site inspection on March 11, 2009 to verify that the site is suitable for this use.
 - c) A single family residence has existed on this site for over 30 years. The applicant is proposing to remove the existing mobile home and install a new home that will also include improved water pressure. This will be accomplished without doing any additional significant grading, or removing any native oak trees.
 - d) The site has a significant number of native oak trees of various sizes. None of the proposed improvements intends to remove any of the existing trees. Conditions will be included in the project approval to insure that the trees are fenced prior to grading so that grading impacts will be minimized.
 - e) Access to the site is shown across an adjacent property. Access can be provided directly to the subject site in a satisfactory manner, but the access shown is preferable. An easement needs to be provided for the access as shown or access needs to be provided directly to the property.
 - f) The application, project plans, and related support materials submitted by the project applicant to the Monterey County RMA - Planning Department for the proposed development found in Project File PLN090063.

3. **FINDING:** **HEALTH AND SAFETY** - The establishment, maintenance, or operation of the project applied for will not under the circumstances of

this particular case be detrimental to the health, safety, peace, morals, comfort, and general welfare of persons residing or working in the neighborhood of such proposed use, or be detrimental or injurious to property and improvements in the neighborhood or to the general welfare of the County.

- EVIDENCE:**
- a) The project was reviewed by RMA - Planning Department, North County Fire Protection District, Public Works, Environmental Health Division, and Water Resources Agency. The respective departments/agencies have recommended conditions, where appropriate, to ensure that the project will not have an adverse effect on the health, safety, and welfare of persons either residing or working in the neighborhood.
 - b) Necessary public facilities are available. Water to the site is provided by Dyer Water System #2. The water system has sufficient water, but recent tests have shown a high total coliform count. The applicant has been working with Environmental Health to resolve this issue. A condition has been added to require that the water system purveyor conduct two tests, one for coliform and the second for residual chlorine. These tests must demonstrate that the well water complies with State and County standards prior to issuance of an occupancy permit.
 - c) Sewer for the site is currently provided by an existing septic system. A new septic system will be installed, including a new septic tank and septic lines. The site plan shows an adequate future expansion area in the event that the septic system needs to be redone.
 - d) Environmental Health has added a condition that the roof water dispersion pit be relocated and reviewed by Environmental Health to ensure that it meets County standards.
 - e) The preceding findings and supporting evidence for PLN090063 demonstrate that the subject site has been the location of an existing mobile home for over 30 years. The removal of this mobile home and replacement with a modular home will not significantly change the use of the site or adversely affect the public health or safety. The project will have a beneficial impact upon public health and safety because it will remove a decaying structure from the site and address the coliform in the water supply.

4. **FINDING:** **NO VIOLATIONS** - The subject property is in compliance with all rules and regulations pertaining to zoning uses, subdivision, and any other applicable provisions of the County's zoning ordinance. No violations exist on the property.

- EVIDENCE:**
- a) Staff reviewed Monterey County RMA - Planning Department and Building Services Department Monterey County records and is not aware of any violations existing on subject property.
 - b) Staff conducted a site inspection on March 11, 2009 and researched County records to assess if any violation exists on the subject property.
 - c) There are no known violations on the subject parcel.
 - d) The application, plans and supporting materials submitted by the project applicant to the Monterey County Planning Department for the proposed development are found in Project File PLN090063.

5. **FINDING: CEQA (Exempt):** - The project is categorically exempt from environmental review and no unusual circumstances were identified to exist for the proposed project.
- EVIDENCE:** a) California Environmental Quality Act (CEQA) Guidelines Section 15303(a), categorically exempts the construction of single family residences.
- b) The project proposes to remove an existing structure from the site which is used as a single family residence and replace it with a structure that will also be used as a single family residence.
- c) No adverse environmental effects were identified during staff review of the development application during a site visit on March 11, 2009.
- d) There are not any unique environmental features, (wetlands, environmentally sensitive habitat) that would indicate that it is inappropriate to exempt this project from further environmental review.
- e) See preceding and following findings and supporting evidence.
6. **FINDING: PUBLIC ACCESS** – The project is in conformance with the public access and recreation policies of the Coastal Act (specifically Chapter 3 of the Coastal Act of 1976, commencing with Section 30200 of the Public Resources Code) and Local Coastal Program, and does not interfere with any form of historic public use or trust rights.
- EVIDENCE:** a) No access is required as part of the project as no substantial adverse impact on access, either individually or cumulatively, as described in Section 20.144.150 of the Monterey County Coastal Implementation Plan can be demonstrated.
- b) The subject property is not described as an area where the Local Coastal Program requires public access (Figure 4 (Public Access and Recreation) and Figure 6 (Shoreline Access/Trials) in the North County Coastal Land Use Plan).
- c) No evidence or documentation has been submitted or found showing the existence of historic public use or trust rights over this property.
- d) The application, plans and supporting materials submitted by the project applicant to the Monterey County Planning Department for the proposed development are found in Project File PLN090063.
- e) The project planner conducted a site inspection on March 11, 2009.
7. **FINDING: DEVELOPMENT ON SLOPE** – The proposed development better achieves the goals, policies and objectives of the Monterey County General Plan and North County Coastal Land Use Plan and the Monterey County Zoning Ordinance (Title 20) than other development alternatives.
- EVIDENCE:** a) In accordance with the applicable policies of the North County Coastal Land Use Plan and the Monterey County Zoning Ordinance (Title 20), a Coastal Development Permit is required and the authority to grant said permit has been met.
- b) The project includes application for development on slopes exceeding 25%. This development consists of trenching in slopes exceeding 25% to install a new water line. Upon installation of the water line, the site will be restored to its existing condition and there will be no impact from the project to slopes in excess of 25%. Water tanks are being placed on the adjacent site to provide water pressure and additional fire

- flow for the subject site and the adjacent lot.
- c) The grading on slopes exceeding 25% slope will not significantly alter the topography of the site, result in significant grading or create a danger to public health and safety.
 - d) The application, plans and supporting materials submitted by the project applicant to the Monterey County Planning Department for the proposed development are found in Project File PLN090063.
 - e) The project planner conducted a site inspection on March 11, 2009.
 - f) The subject project minimizes development on slopes exceeding 25% in accordance with the applicable goals and policies of the applicable area plan and zoning codes
8. **FINDING: WATER SUPPLY** – The project has an adequate long-term water supply and manages development in the area so as to minimize adverse effects on the aquifers and preserve them as viable sources of water for human consumption.
- EVIDENCE:** a) The existing house has its water supply from Dyer Road Water System # 2. The new house will receive water from the same source.
 b) The subject site is within the North County Water Impact Area, but is also within Zone 2C so it is considered to have a stable long-term source of water.
9. **FINDING: APPEALABILITY** - The decision on this project may be appealed to the Board of Supervisors and the California Coastal Commission
- EVIDENCE:** a) Section 20.86.030A Monterey County Zoning Ordinance (Board of Supervisors).
 b) Section 20.86.080A Monterey County Zoning Ordinance (Coastal Commission). The project is subject to appeal by/to the California Coastal Commission because the project involves approval of a Coastal Development Permit.

DECISION

NOW, THEREFORE, based on the above findings and evidence, the Zoning Administrator does hereby:

Approve the Combined Development Permit consisting of 1) Coastal Administrative Permit to allow the dismantling and removal of an existing 1,394 square foot mobile home and replacement with a two-story 2,027 square foot prefabricated single family dwelling, installation of a new septic system, and grading of 481 cubic yards of cut and fill and 2) a Coastal Development Permit to allow installation of an underground water line across slopes exceeding 25% in general conformance with the attached sketch (**Exhibit 2**) and subject to the conditions (**Exhibit 1**), both exhibits being attached hereto and incorporated herein by reference.

PASSED AND ADOPTED this 30th day of July, 2009.

 JACQUELINE ONCIANO, ZONING ADMINISTRATOR

COPY OF THIS DECISION MAILED TO APPLICANT ON DATE **AUG 14 2009**

THIS APPLICATION IS APPEALABLE TO THE BOARD OF SUPERVISORS.

IF ANYONE WISHES TO APPEAL THIS DECISION, AN APPEAL FORM MUST BE COMPLETED AND SUBMITTED TO THE CLERK TO THE BOARD ALONG WITH THE APPROPRIATE FILING FEE ON OR BEFORE **AUG 24 2009**

THIS PROJECT IS LOCATED IN THE COASTAL ZONE AND IS APPEALABLE TO THE COASTAL COMMISSION. UPON RECEIPT OF NOTIFICATION OF THE FINAL LOCAL ACTION NOTICE (FLAN) STATING THE DECISION BY THE FINAL DECISION MAKING BODY, THE COMMISSION ESTABLISHES A 10 WORKING DAY APPEAL PERIOD. AN APPEAL FORM MUST BE FILED WITH THE COASTAL COMMISSION. FOR FURTHER INFORMATION, CONTACT THE COASTAL COMMISSION AT (831) 427-4863 OR AT 725 FRONT STREET, SUITE 300, SANTA CRUZ, CA

This decision, if this is the final administrative decision, is subject to judicial review pursuant to California Code of Civil Procedure Sections 1094.5 and 1094.6. Any Petition for Writ of Mandate must be filed with the Court no later than the 90th day following the date on which this decision becomes final.

NOTES

1. You will need a building permit and must comply with the Monterey County Building Ordinance in every respect.

Additionally, the Zoning Ordinance provides that no building permit shall be issued, nor any use conducted, otherwise than in accordance with the conditions and terms of the permit granted or until ten days after the mailing of notice of the granting of the permit by the appropriate authority, or after granting of the permit by the Board of Supervisors in the event of appeal.

Do not start any construction or occupy any building until you have obtained the necessary permits and use clearances from the Monterey County Planning Department and Building Services Department office in Salinas.

2. This permit expires 4 years after the above date of granting thereof unless construction or use is started within this period.

RMA – Planning Department						
1.		<p>PD001 - SPECIFIC USES ONLY This Combined Development Permit (PLN090063) allows 1) Coastal Administrative Permit to dismantle and remove an existing 1,394 square foot mobile home and replace it with a two-story 2,027 square foot prefabricated single family dwelling, installation of a new septic system, and grading of 481 cubic yards of cut and fill and 2) a Coastal Development Permit to allow installation of an underground water line across slopes exceeding 25% The property is located at 8761 Dyer Road (Assessor's Parcel Number 129-021-052-000), North County Coastal Land Use Plan. This permit was approved in accordance with County ordinances and land use regulations subject to the following terms and conditions. Any use or construction not in substantial conformance with the terms and conditions of this permit is a violation of County regulations and may result in modification or revocation of this permit and subsequent legal action. No use or construction other than that specified by this permit is allowed unless additional permits are approved by the appropriate authorities. (RMA-Planning Department)</p>	<p>Adhere to conditions and uses specified in the permit.</p> <p>Neither the uses nor the construction allowed by this permit shall commence unless and until all of the conditions of this permit are met to the satisfaction of the Director of the RMA - Planning Department.</p> <p>To the extent that the County has delegated any condition compliance or mitigation monitoring to the Monterey County Water Resources Agency, the Water Resources Agency shall provide all information requested by the County and the County shall bear ultimate responsibility to ensure that conditions and mitigation measures are properly fulfilled.</p>	<p>Owner/ Applicant</p> <p>RMA - Planning</p> <p>WRA RMA - Planning</p>	<p>Ongoing unless otherwise stated</p>

2.		PD002 - NOTICE-PERMIT APPROVAL The applicant shall record a notice which states: "A permit (Resolution 090063) was approved by the Zoning Administrator for Assessor's Parcel Number 129-021-052-000 on July 30, 2009. The permit was granted subject to 21 conditions of approval which run with the land. A copy of the permit is on file with the Monterey County RMA - Planning Department." (RMA-Planning Department)	Obtain appropriate form from the RMA-Planning Department. The applicant shall complete the form and furnish proof of recordation of this notice to the RMA - Planning Department.	Owner/ Applicant RMA- Planning	Prior to the issuance of grading and building permits or commencement of use.	
3.		PD032(A) - PERMIT EXPIRATION The permit shall be granted for a time period of 4 years, to expire on July 29, 2013 unless use of the property or actual construction has begun within this period. (RMA – Planning Department)	The applicant shall obtain a valid grading or building permit and/or commence the authorized use to the satisfaction of the Director of Planning. Any request for extension must be received by the Planning Department at least 30 days prior to the expiration date.	Owner/ Applicant	As stated in the conditions of approval	
4.		PD007 - GRADING-WINTER RESTRICTION No land clearing or grading shall occur on the subject parcel between October 15 and April 15 unless authorized by the Director of RMA - Building Services Department. (RMA – Planning Department and Building Services Department)	Obtain authorization from the Director of RMA - Building Services Department to conduct land clearing or grading between October 15 and April 15.	Owner/ Applicant	Ongoing	
5.		PDSP01 – TREE AND ROOT PROTECTION (NON-STANDARD CONDITION) Trees which are located close to the construction site(s) shall be protected from inadvertent damage from construction equipment by fencing off the canopy driplines. The fencing shall remain in place throughout the grading and construction process. The Planning Department shall inspect the fencing prior to issuance of any permits. Encroachment into the dripline of any trees with any grading is not permitted. Trenching for the water lines as shown on the plans within the dripline of the 16”	Submit evidence of tree protection to the RMA - Planning Department for review and approval. Submit on-going evidence that tree protection measures are in place through out grading and construction phases. If damage is possible, submit an interim report prepared by a certified	Owner/ Applicant Owner/ Applicant/ Arborist	Prior to the issuance of grading and/or building permits During Construction

		and 17" oaks located to the east of the proposed house is permitted subject to the requirements that the trenching be at the furthest point from the trunk of these trees and that an arborist must inspect the work and treat the roots after trenching. Should any additional trees not included in this permit be harmed, during grading or construction activities, in such a way where removal is required, the owner/applicant shall obtain required permits. (RMA - Planning Department)	arborist. Submit photos of the trees on the property to the RMA – Planning Department after construction to document that tree protection has been successful or if follow-up remediation or additional permits are required. Proof of the Arborist inspection of the trenching must be submitted prior to final occupancy.	Owner/ Applicant	Prior to final inspection	
6.		PDSP02 ACCESS (NONSTANDARD CONDITION). The applicant shall either provide an acceptable easement demonstrating the right to use the existing access across the adjoining property, or the access to the site shall be contained completely on site. (RMA – Planning Department)	Submit a recorded easement providing right to cross adjacent property.	Owner/ Applicant	Prior to issuance of Building Permit	
7.		PD012(H) - LANDSCAPING PLAN - NORTH COUNTY COASTAL NATIVE The site shall be landscaped. The use of native species consistent with and found in the project area shall be required in all landscaping plans as a condition of project approval. A list of appropriate native plant species identified in Attachment #2 and #3 in the North County Implementation Plan Development Regulations is available in brochure form (<i>Suggested Native Species Landscaping List - North County Coastal Zone</i>) from the RMA - Planning Department. (RMA – Planning Department)	Submit landscape plans and contractor's estimate to RMA - Planning Department for review and approval. Landscaping plans shall include the recommendations from the Forest Management Plan or Biological Survey as applicable.	Owner/ Applicant/ Licensed Landscape Contractor/ Licensed Landscape Architect	Prior to issuance of Building Permits	
8.		PD014(A) – LIGHTING – EXTERIOR LIGHTING PLAN All exterior lighting shall be unobtrusive, down-lit, harmonious with the local area, and constructed or located so that only the intended area is illuminated and off-site glare is fully controlled. The applicant shall submit 3	Submit three copies of the lighting plans to the RMA - Planning Department for review and approval. Approved lighting plans shall be incorporated into final building plans.	Owner/ Applicant	Prior to the issuance of building permits.

		copies of an exterior lighting plan which shall indicate the location, type, and wattage of all light fixtures and include catalog sheets for each fixture. The lighting shall comply with the requirements of the California Energy Code set forth in California Code of Regulations, Title 24, Part 6. The exterior lighting plan shall be subject to approval by the Director of the RMA - Planning Department, prior to the issuance of building permits. (RMA – Planning Department)				
Health Department Environmental Health Division						
9.		EH11 - SEPTIC SYSTEM DESIGN Submit plans for review and approval showing the location and design of the proposed septic system meeting the standards found in Chapter 15.20 of the Monterey County Code (Septic Ordinance) and "Prohibitions", Central Coast Basin Plan, RWQCB. (Environmental Health)	Division of Environmental Health must approve plans. Applicant shall obtain a permit to install the septic system.	CA Licensed Engineer /Owner/ Applicant	Prior to filing the final parcel map or issuance of building	
10.		EHSP01 WATER SYSTEM QUALITY (NON-STANDARD CONDITION). The Dyer Road Water System # 2 shall contact the Monterey County Health Department, Environmental Health Division to schedule the collection of a water sample (<i>total coliform</i>) in addition to a chlorine residual sample prior to the final inspection for the building permit. The samples shall demonstrate that the water from the well is in compliance with State and County Standards. If the samples do not comply with State and County standards corrective measures shall be taken. (Environmental Health)	Contact the Environmental Health Division, Drinking Water Protection Services program to schedule the collection of the <i>total coliform</i> water sample and the chlorine residual sample.	CA Licensed Engineer /Owner/ Applicant	Prior to final inspection for the building permit	
			If the samples do not comply with County and State Standards, measures shall be taken to bring system into compliance	CA Licensed Engineer /Owner/ Applicant	Prior to Occupancy.	
11.		EHSP002 DISPERSAL TRENCH FOR ROOF WATER (NONSTANDARD CONDITION) Submit revised site plans for review and approval	Submit plans to the Division of Environmental Health for review and approval.	CA Licensed Engineer /Owner/	Prior to issuance of grading and	

<i>Permit Cond. Number</i>	<i>Mitig. Number</i>	<i>Conditions of Approval and/or Mitigation Measures and Responsible Land Use Department</i>	<i>Compliance or Monitoring Actions to be performed. Where applicable, a certified professional is required for action to be accepted.</i>	<i>Responsible Party for Compliance</i>	<i>Timing</i>	<i>Verification of Compliance (name/date)</i>
		showing the <i>re-location</i> and design of the proposed dispersal trench for roof water meeting county standards. Dispersal trench shall be relocated so as not to impact the onsite wastewater treatment systems on the property. (Environmental Health)		Applicant	building permits.	
Monterey County Water Resources Agency						
12.		WR8 - COMPLETION CERTIFICATION The applicant shall provide the Water Resources Agency certification from a registered civil engineer or licensed contractor that stormwater detention/retention facilities have been constructed in accordance with approved plans. (Water Resources Agency)	Submit a letter to the Water Resources Agency, prepared by a registered civil engineer or licensed contractor, certifying compliance with approved drainage plan.	Owner/ Applicant/ Engineer/ Contractor	Prior to final inspection	
13.		WR40 - WATER CONSERVATION MEASURES The applicant shall comply with Ordinance No. 3932, or as subsequently amended, of the Monterey County Water Resources Agency pertaining to mandatory water conservation regulations. The regulations for new construction require, but are not limited to: a. All toilets shall be ultra-low flush toilets with a maximum tank size or flush capacity of 1.6 gallons, all shower heads shall have a maximum flow capacity of 2.5 gallons per minute, and all hot water faucets that have more than ten feet of pipe between the faucet and the hot water heater serving such faucet shall be equipped with a hot water recirculating system. b. Landscape plans shall apply xeriscape principles, including such techniques and materials as native or low water use plants and low precipitation sprinkler heads, bubblers, drip irrigation systems and timing devices. (Water Resources Agency)	Compliance to be verified by building inspector at final inspection.	Owner/ Applicant	Prior to final building inspection/occupancy	

<i>Permit Cond. Number</i>	<i>Mitig. Number</i>	<i>Conditions of Approval and/or Mitigation Measures and Responsible Land Use Department</i>	<i>Compliance or Monitoring Actions to be performed. Where applicable, a certified professional is required for action to be accepted.</i>	<i>Responsible Party for Compliance</i>	<i>Timing</i>	<i>Verification of Compliance (name/date)</i>
14.		<p>WRSP001 - DRAINAGE PLAN – RETENTION (NON-STANDARD CONDITION) The applicant shall provide the Water Resources Agency a drainage plan addressing on-site and off-site impacts. The plan shall include retention/percolation facilities to mitigate the impact of impervious surface stormwater runoff. Drainage improvements shall be constructed in accordance with plans approved by the Water Resources Agency. (Water Resources Agency)</p>	Submit 3 copies of the drainage plan to the Water Resources Agency for review and approval.	Owner/ Applicant	Prior to issuance of grading or building permits	WRA
Fire Agency (North County Fire Protection District)						
15.		<p>FIRE007 - DRIVEWAYS Driveways shall not be less than 12 feet wide unobstructed, with an unobstructed vertical clearance of not less than 15 feet. The grade for all driveways shall not exceed 15 percent. Where the grade exceeds 8 percent, a minimum structural roadway surface of 0.17 feet of asphaltic concrete on 0.34 feet of aggregate base shall be required. The driveway surface shall be capable of supporting the imposed load of fire apparatus (22 tons), and be accessible by conventional-drive vehicles, including sedans. For driveways with turns 90 degrees and less, the minimum horizontal inside radius of curvature shall be 25 feet. For driveways with turns greater than 90 degrees, the minimum horizontal inside radius curvature shall be 28 feet. For all driveway turns, an additional surface of 4 feet shall be added. All driveways exceeding 150 feet in length, but less than 800 feet in length, shall provide a turnout near the midpoint of the driveway. Where the driveway exceeds 800 feet, turnouts shall be provided at no greater than 400-foot intervals. Turnouts shall be a minimum of 12 feet wide and 30 feet long with a minimum of 25-foot taper at both ends. Turnarounds shall be required on</p>	<p>Applicant shall incorporate specification into design and enumerate as “Fire Dept. Notes” on plans.</p>	Applicant or owner	Prior to issuance of grading and/or building permit.	
			Applicant shall schedule fire dept. clearance inspection	Applicant or owner	Prior to final building inspection.	

<i>Permit Cond. Number</i>	<i>Mitig. Number</i>	<i>Conditions of Approval and/or Mitigation Measures and Responsible Land Use Department</i>	<i>Compliance or Monitoring Actions to be performed. Where applicable, a certified professional is required for action to be accepted.</i>	<i>Responsible Party for Compliance</i>	<i>Timing</i>	<i>Verification of Compliance (name/date)</i>
		driveways in excess of 150 feet of surface length and shall long with a minimum 25-foot taper at both ends. Turnarounds shall be required on driveways in excess of 150 feet of surface length and shall be located within 50 feet of the primary building. The minimum turning radius for a turnaround shall be 40 feet from the center line of the driveway. If a hammerhead/T is used, the top of the "T" shall be a minimum of 60 feet in length. North County Fire Protection District.				
16.		FIRE011 - ADDRESSES FOR BUILDINGS All buildings shall be issued an address in accordance with Monterey County Ordinance No. 1241. Each occupancy, except accessory buildings, shall have its own permanently posted address. When multiple occupancies exist within a single building, each individual occupancy shall be separately identified by its own address. Letters, numbers and symbols for addresses shall be a minimum of 4-inch height, 1/2-inch stroke, contrasting with the background color of the sign, and shall be Arabic. The sign and numbers shall be reflective and made of a noncombustible material. Address signs shall be placed at each driveway entrance and at each driveway split. Address signs shall be and visible from both directions of travel along the road. In all cases, the address shall be posted at the beginning of construction and shall be maintained thereafter. Address signs along one-way roads shall be visible from both directions of travel. Where multiple addresses are required at a single driveway, they shall be mounted on a single sign. Where a roadway provides access solely to a single commercial occupancy, the address sign shall be placed at the nearest road intersection providing access to that site. Permanent address numbers shall be posted prior to requesting final clearance. North County Fire Protection District.	Applicant shall incorporate specification into design and enumerate as "Fire Dept. Notes" on plans. Applicant shall schedule fire dept. clearance inspection	Applicant or owner Applicant or owner	Prior to issuance of building permit. Prior to final building inspection	

<i>Permit Cond. Number</i>	<i>Mitig. Number</i>	<i>Conditions of Approval and/or Mitigation Measures and Responsible Land Use Department</i>	<i>Compliance or Monitoring Actions to be performed. 17.		FIRE014 - EMERGENCY WATER STANDARDS - FIRE PROTECTION WATER SUPPLY - (SINGLE PARCEL) For development of structures totaling less than 3,000 square feet on a single parcel, the minimum fire protection water supply shall be 4,900 gallons. For development of structures totaling 3,000 square feet or more on a single parcel, the minimum fire protection water supply shall be 9,800 gallons. For development of structures totaling more than 10,000 square feet on a single parcel, the reviewing authority may require additional fire protection water supply. Other water supply alternatives, including ISO Rural Class 8 mobile water systems, may be permitted by the fire authority to provide for the same practical effect. The quantity of water required by this condition shall be in addition to the domestic demand and shall be permanently and immediately available. North County Fire Protection District.	Applicant shall incorporate specification into design and enumerate as "Fire Dept. Notes" on plans.	Applicant or owner	Prior to issuance of grading and/or building permit.	
			Applicant shall schedule fire dept. clearance inspection	Applicant or owner	Prior to final building inspection	
18.		FIRE019 - DEFENSIBLE SPACE REQUIREMENTS - (STANDARD) Manage combustible vegetation within a minimum of 100 feet of structures (or to the property line.) Limb trees 6 feet up from ground. Limb trees 6 feet up from ground. Remove limbs within 10 feet of chimneys. Additional and/or alternate fire protection or firebreaks approved by the fire authority may be required to provide reasonable fire safety. Environmentally sensitive areas may require alternative fire protection, to be determined by Reviewing Authority and the Director of Planning and Building Inspection. North County Fire Protection District.	Applicant shall incorporate specification into design and enumerate as "Fire Dept. Notes" on plans.	Applicant or owner	Prior to issuance of grading and/or building permit.	
			Applicant shall schedule fire dept. clearance inspection	Applicant or owner	Prior to final building inspection	

<i>Permit Cond. Number</i>	<i>Mitig. Number</i>	<i>Conditions of Approval and/or Mitigation Measures and Responsible Land Use Department</i>	<i>Compliance or Monitoring Actions to be performed. Where applicable, a certified professional is required for action to be accepted.</i>	<i>Responsible Party for Compliance</i>	<i>Timing</i>	<i>Verification of Compliance (name/date)</i>
19.		FIRE021 - FIRE PROTECTION EQUIPMENT & SYSTEMS - FIRE SPRINKLER SYSTEM (STANDARD) The building(s) and attached garage(s) shall be fully protected with automatic fire sprinkler system(s). Installation shall be in accordance with the applicable NFPA standard. A minimum of four (4) sets of plans for fire sprinkler systems must be submitted by a California licensed C-16 contractor and approved prior to installation. This requirement is not intended to delay issuance of a building permit. A rough sprinkler inspection must be scheduled by the installing contractor and completed prior to requesting a framing inspection. North County Fire Protection District.	Applicant shall enumerate as "Fire Dept. Notes" on plans.	Applicant or owner	Prior to issuance of building permit.	
			Applicant shall schedule fire dept. rough sprinkler inspection	Applicant or owner	Prior to framing inspection	
			Applicant shall schedule fire dept. final sprinkler inspection	Applicant or owner	Prior to final building inspection	
20.		FIRE025 - SMOKE ALARMS – (SINGLE FAMILY DWELLING) Where a household fire warning system or combination fire/burglar alarm system is installed in lieu of single-station smoke alarms required by the Uniform Building Code the alarm panel shall be required to be placarded as permanent building equipment. North County Fire Protection District.	Applicant shall enumerate as "Fire Dept. Notes" on plans.	Applicant or owner	Prior to issuance of building permit.	
			Applicant shall schedule fire alarm system acceptance test.	Applicant or owner	Prior to final building inspection	
21.		FIRE026 - ROOF CONSTRUCTION (STANDARD) All new structures, and all existing structures receiving new roofing over 50 percent or more of the existing roof surface within a one-year period, shall require a minimum of ICBO Class B roof construction. North County Fire Protection District.	Applicant shall enumerate as "Fire Dept. Notes" on plans.	Applicant or owner	Prior to issuance of building permit.	

END OF CONDITIONS

Rev. 04/15/2009

TRENCH DIMENSIONS

NORM. 3 FT.
DEPTH 3 FT.
LENGTH 10 FT.
180 SQ. FT. PERVIOUS AREA AT ROOF = 180 SQ. FT.
(NOT TO BE USED FOR PERVIOUS MATERIALS)

ROOF WATER DISPERSION OUTLET DTL.

NOTES

1. SANDFILL PIPE SHALL BE LEVEL AND TRENCH SHALL BE PARALLEL TO CONTIGUOUS
2. TRENCH AND OR EQUAL FILTER FABRIC SHALL BE INSTALLED TO THE TOP AND BOTTOM OF THE TRENCH. PROTECT FROM ANY STRUCTURES.
3. DIFFUSION TRENCH SHALL BE LOCATED ON THE LEAST STEEP AVAILABLE SLOPE.
4. DIFFUSION TRENCH SHALL BE LOCATED ANY AND BENEATH THE FIELD.

SILT FENCING DTL.

TYP. EARTH BERM DTL.

EROSION CONTROL & GRADING NOTES

1. EXPOSED EARTH SHALL BE LANDSCAPED FOR EROSION CONTROL PRIOR TO THE RAINY SEASON (OCT. 15 TO APRIL 15). UNLESS OTHERWISE ESTABLISHED PRIOR TO THE RAINY SEASON, SLOPES AND SWALES SHALL BE SEEDED WITH ANNUAL RYE GRASS (OR EQUIVALENT) AND MULCHED WITH AT LEAST 2 LAYERS OF STRAW, WOOD CHIPS OR COMPOST. WOOD CHIPS SHALL BE RESTRAINED ON SWALES BY JUTE NETTING STAPLED TO GROUND. SILT FENCES AND/OR STRAW BARRIERS SHALL BE INSTALLED ALONG THE LIMITS OF GRADING AND/OR EXCAVATION AREAS WITHOUT ESTABLISHED LANDSCAPING.
2. DURING CONSTRUCTION EXPOSED EARTH SHALL BE PROTECTED FROM EROSION AT ALL TIMES. SUCH PROTECTION MAY CONSIST OF BUILDING AND/OR PLANTING OF NATIVE VEGETATION OF APPROPRIATE HEIGHT, SILT FENCES, STRAW BARRIERS, ETC. LOCATION OF SUCH PROTECTION WILL DEPEND ON THE CONSTRUCTION SEQUENCE, STAGE OF GRADING AND THE DIRECTION OF PROJECT. ANY EXPOSED SOIL ON DISTURBED SLOPES SHALL BE PROTECTED BY EROSION CONTROL MEASURES.
3. DRAINAGE SLOPES WILL BE MAINTAINED 1/4\"/>

WINTER OPERATION NOTES

- OCTOBER 15 THRU APRIL 15**
- WHEN WINTER OPERATIONS TAKE PLACE, THE FOLLOWING MEASURES MUST BE TAKEN TO PREVENT ACCELERATED EROSION.
- A. VEGETATION REMOVAL BETWEEN OCT. 15 AND APRIL 15 SHALL NOT PROCEED SUBSEQUENT GRADING OR EXCAVATION ACTIVITIES OF MORE THAN 15 DAYS. DURING THIS PERIOD, EROSION AND EROSION CONTROL MEASURES SHALL BE IN PLACE.
 - B. BETWEEN OCT. 15 AND APRIL 15, DISTURBED SURFACES NOT INVOLVED ON THE IMMEDIATE OPERATIONS MUST BE PROTECTED BY MULCHING AND/OR OTHER EFFECTIVE MEANS OF SOLE PROTECTION.
 - C. RUNOFF FROM THE SITE SHALL BE DRAINAGED OR FILTERED BY SEPARATELY VEGETATED FILTER STRIPS AND/OR OTHER MEANS TO PREVENT THE ESCAPE OF SEDIMENT FROM THE DISTURBED AREA ON THE SITE. THESE DRAINAGE CONTROL MEASURES MUST BE MAINTAINED BY THE CONTRACTOR AS NECESSARY TO ACHIEVE THEIR PURPOSE THROUGHOUT THE LIFE OF THE PROJECT.
 - D. EROSION CONTROL MEASURES SHALL BE AT THE END OF EACH DAY'S WORK.
 - E. ALL ROADS AND DRIVEWAYS SHALL HAVE DRAINAGE FACILITIES SUFFICIENT TO PREVENT EROSION ON OR ADJACENT TO THE DRIVEWAY OR ON THE DOWNHILL PROPERTIES.
 - F. THE DIRECTOR OF THE BUILDING INSPECTION DEPT. MAY STOP OPERATIONS DURING PERIODS OF INCLEMENT WEATHER IF HE DETERMINES THAT EROSION'S PROBLEMS ARE NOT BEING CONTROLLED ADEQUATELY.

ADDITIONAL GRADING NOTES

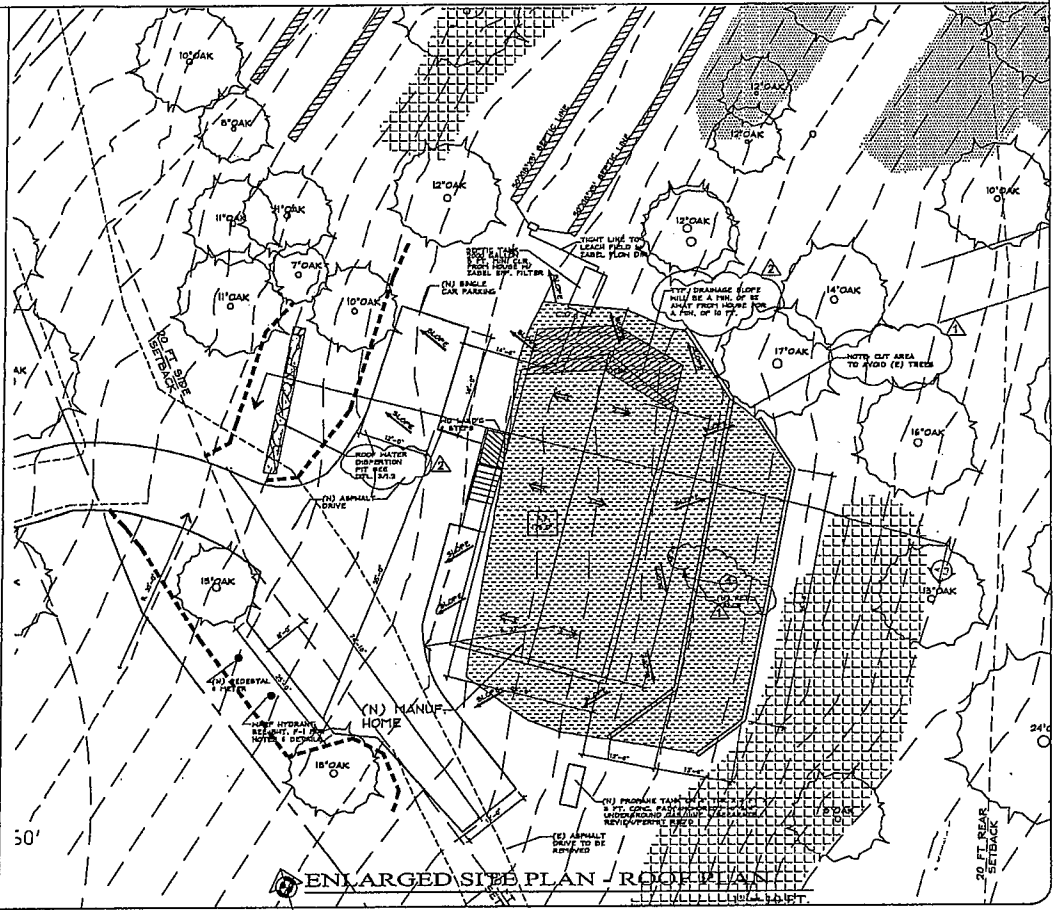

- A COPY OF ALL FIELD REPORTS, CONSTRUCTION TESTS AND TEST GRADING REPORTS SHALL BE SUBMITTED TO THE COUNTY AT SCHEDULED INSPECTIONS.
- ALL GRADING SHALL CONFORM TO MONTEREY COUNTY GRADING ORDINANCES 2311 AND 2400 (EXCEPT WHERE OTHERWISE NOTED).
- PAV RELAYMENT SHALL BE CERTIFIED TO AN FEET FROM TO ANY FOOTING OR SCHEDULED ANY INSPECTIONS.
- ALL GRADING AND EROSION CONTROL MEASURES TO FOLLOW BECD PER GEOTECHNICAL REPORT BY GRUCE ENG.
- Actual grading shall begin within 30 days of vegetation removal or that work shall be placed under the provisions of Section 16.08.340 to control erosion. (16.08.300 C.1)
- No vegetation removal or grading will be allowed which will result in violation of water courses or unconsolidated erosion. (16.08.300 C.2)
- Cut slopes shall be no steeper than two horizontal to one vertical. (16.08.300 A)
- Drainage and terraces shall be provided as required by Section 117
- NOTE: SEE SHT. 1.1 FOR ADDITIONAL GRADING & EROSION NOTES
